How Pricing Works

Final pricing is calculated using the following model:

Base Service Fee + Mileage + Any Additional Fees = Final Delivery Price

The base service fee covers the cost of accepting and preparing the delivery, dispatch coordination, pickup handling, basic administrative time, and standard service support.

Mileage is calculated from the pickup location to the delivery location. For long-distance deliveries, return mileage or extended travel time may be factored into the final quote.

Additional Fees May Apply

Additional fees may apply for:

- Rush or direct delivery service
 - After-hours deliveries
 - Weekend or holiday deliveries
 - Additional stops
 - Wait time at pickup or drop-off
 - Oversized or heavy items
 - Failed delivery attempts
 - Special handling requirements
 - Chain-of-custody documentation
 - Parking, tolls, or access fees
-

Wait Time Policy

The first 10–15 minutes of wait time may be included depending on the service type. After that, wait time may be billed at **\$1.00 per minute** or **\$60 per hour**.

Rush, After-Hours, and Weekend Service

Rush, after-hours, weekend, and holiday deliveries may require an additional service fee depending on availability, distance, and urgency.

Typical add-on fees may range from **\$35 to \$100**, depending on the request.
