

# PROFILE

This profile contains a selection of projects delivered by AYYASH-SIGNUM during the past 30 years. Their chosen variety aims at giving an overview of the different kind of works. The recipient is welcome to inquire based on the projects indicated. Please contact us before sharing the Profile Outline with Third Parties.

## STANDALONE PROJECTS

### INTERCONTINENTAL HOTEL

In 2000, we were chosen over a British and a local company to deliver all the signs work of the INTERCONTINENTAL HOTEL in Palestine. Our services included 500 solid brass 8mm engraved interior signs (this includes: room numbers, directions, and lobby signs) in addition to 10 metal powder coated billboards.

### BANK OF JORDAN

From 1988-2012, we delivered our services to the BANK OF JORDAN. Orders included: 40 main signs, 3m wide illuminated flex, in addition to 40 ATM units made using Aluminum Composite Panels (ACP), as well as indoor acrylic signs and Polyvinyl Chloride (PVC) signs including digital printing on wall papers.

### FASTLINK (TODAY: ZAIN)

In 2002, we were assigned the so far largest signs order in the Kingdom. In the time-critical assignment, we delivered two months ahead of the given four months deadline. Our work included: three main illuminated signs, 100 indoor signs made of acrylic and cut, using laser cutting technique, one screen touch stainless steel stand (size: 3mx1.5m), 5.000 acrylic mobile holders, 5000 acrylic flyers holders, 1.500 acrylic stand posters, 500 holders made of acrylic and wood, and 1.000 outdoor double sided lighted flex signs for dealers and sub-dealers.

## MOST RECENT PROJECT

ZAIN

In 2023, we delivered our services in Jordan to the leading mobile telecommunication provider in the Middle East and Africa, namely Zain. Within one month, we delivered a total of 13 light emitting diode (LED) signs of different types. Specifically, LED foam letters (3cm thickness with 10mm white acrylic), LED neon letters (15mm thickness), LED aluminum letters (6cm thickness), and LED acrylic letters (20mm thickness).

## HOTELS

### MARRIOTT HOTELS

From 1986 to 2010, we delivered our services to the MARRIOTT HOTELS in Amman and Petra. In Amman we delivered to 14 shops in the shopping arcade of the hotel in addition to 8mm solid brass letters placed indoor of the hotel. In Petra, 300 indoor signs were delivered most of which were 10mm thickness engraved acrylic with sandblast background.

### FOUR SEASONS HOTEL

In 2007, we delivered the main sign for the FOUR SEASONS HOTEL in Jordan, using 24carat gold leaf gilding technique.

### PLAZA HOTEL

In 1990, we delivered to the PLAZA HOTEL in Jordan two main neon signs, each made of over 1000 sections with an overall size of 25sqm. The sign was placed on top of 13<sup>th</sup> floor (about 40m height).

## MEDICAL

### HIKMA PHARMACEUTICAL MANUFACTURING CO

Since 2000, we have been delivering our services to the HIKMA PHARMACEUTICALS MANUFACTURING CO. in Jordan and Tunisia. Our speed and precision in delivering the work have made us the preferred choice by this pharmaceutical manufacturer. Our services have been requested by the general factory, penicillin factory, sterilisation factory, water treatment factory, and a variety of its labs. Orders included acrylic machine doors, acrylic machine covers, stainless steel shadow boards, aluminum indoor signs, scale boxes, in addition to 1000s of acrylic signs created using thermoforming technology.

### ARAB PHARMACEUTICAL MANUFACTURING CO.

Since 2006, we have been delivering our services to the ARAB PHARMACEUTICAL MANUFACTURING CO. in Jordan. Orders mainly included thermoforming acrylic signs and indoor signs.

### BABY CORD

In 2015, we delivered two main outdoor metal signs with background lightening using light emitting diode (LED) to BABY CORD Amman.

In 2009, we delivered our services to the JORDAN KUWAIT BANK in Jordan. Our work involved three illuminated Aluminum Composite Panels (ACP) outdoor signs.

### KING HUSSEIN CANCER FOUNDATION

In 2017, we delivered our services to the KING HUSSEIN CANCER FOUNDATION in Jordan. Our services included 150 acrylic statues and gifts, three pop-up stands involving high digital printing on banners, in addition to three Aluminum Composite Panels (ACP) with Polyvinyl Chloride (PVC) letters for the main sign.

### SAVE THE CHILDREN

In 2019, we worked with SAVE THE CHILDREN in Jordan, delivering several outdoor signs requests.

### SAVE OUR SOULS

In 2017 and 2019, we delivered our services to the children's village in Amman, Jordan. Requests included: four indoor acrylic signs of 1sqm size involving UV printing technology, a tree of donors, again involving UV printing on acrylic, 60 donation boxes, 36 outdoor doubly layer acrylic signs, main brass sign involving engraving technique, 100 boards of honour made of clear acrylic with spacers.

## OTHERS

### AL-KASABA THEATRE

Following our work on the Intercontinental Hotel in Palestine, we were approached by Al-KASABA THEATRE within the same area and delivered for orders of indoor and outdoor signs.

### EURO SHIPPING SERVICES

Since 2005, we have been delivering our services to the Euro Shipping Services in Jordan. Orders include Polyvinyl Chloride (PVC) main signs created using Computer Numerical Control (CNC) for letters cutting, brand signs created using UV-printing technology on 10mm thickness acrylic with four spacers, 70 vehicle signs using vinyl-printing technology, in addition to indoor signs for branding and offices created from acrylic.

## ARAB OPEN UNIVERSITY

In 2010, we worked with the ARAB OPEN UNIVERSITY in Jordan delivering indoor and outdoor signs. Indoor work included UV-printing on Aluminum Composite Panels (ACP) while outdoor work included stainless steel mirror letters.

## SMARTBUY

In 2006, we were delivering our services to the main branch of SMART BUY in Jordan. Our services included: 100 directional signs involving large format printing technique on acrylic, 10 indoor iron circular signs (diameter: 1m), 20 illuminated flex indoor signs (including trademarks like LG and Samsung), sandblast on glass (at the main entrance, reception, stairs, and main offices), 500 holders made of acrylic, 100m in length wall paper.
