Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Each outstanding share shall be entitled to vote on each matter submitted to a vote at a meeting of shareholders, except to the extent that the voting rights of the shares of any class are limited or denied by or pursuant to the Articles of Incorporation or the Nevada Corporations Code

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Except as otherwise required by law, the holders of the Series "A" Preferred Stock will hold voting rights equivalent to sixty-seven percent (67%) of the then outstanding common shares; if divided amongst more than one holder, each respective holder shall hold a pro rata voting percentage based on his or her share of the total allotment of Series "A" Preferred Stock. In the event the one million shares are held by more than one shareholder the cumulative voting rights of sixty-seven percent (67%) shall be distributed pro rata amongst them.

Except as otherwise required by law, the holders of the Series "B" Preferred Stock will not have any common stock voting rights. However, the class of Preferred Holders may themselves vote on matters affecting the class of Series "B" shareholders, such as redemption. In the event sixty seven percent of the class votes to redeem, the super majority percentage shall prevail and be required for any other modifications of rights, etc.

Subject to and in compliance with the provisions of this Designation, each share of Series "B" Preferred Stock issued and outstanding may, at the option of the holder, be converted at any time into ten (10) fully paid and nonassessable shares of Common Stock ("Conversion Ratio").

3. Describe any other material rights of common or preferred stockholders.

NA

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

NEWPORT GOLD, INC.
Notes to Consolidated Financial Statements

NOTE 1 – OPERATIONS AND BASIS OF PRESENTATION

Newport Gold, Inc. (the "Company") was incorporated under the laws of Nevada on July 16, 2003, and was involved in the acquisition, exploration and development of mineral and energy properties until 2023. In 2023, The Company transitioned into a digital marketing company and divested all mining assets. As of 2026, the company is diversified focusing on high growth opportunities in the automotive, data, and digital technology sectors.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") as applicable to an exploration stage enterprise under FASB-ASC 915-205 and are expressed in US dollars.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, 2038052 Ontario Inc. and NWPG Mining Corp. All intercompany balances and transactions have been eliminated on consolidation.

Use of Estimates

The preparation of financial statements in conformity with US GAAP require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the recoverability of resource properties, accrued liabilities, rate of amortization and the valuation allowance for deferred income tax assets. Management believes the estimates are reasonable; however, actual results could differ from those estimates and could impact future results of operations and cash flows.

NEWPORT GOLD, INC.
Notes to Consolidated Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and cash equivalents

The Company considers highly liquid investments with original maturities of three months or less to be cash equivalents. At March 31, 2025 and March 31, 2026, cash and cash equivalents consisted of cash held at financial institutions and highly liquid investments with original maturities of less than three months.

Foreign Currency Translation

The Company's operations and activities are conducted principally in Canada; hence the Canadian dollar is the functional currency. Non-monetary assets and liabilities are translated at historical rates; monetary assets and liabilities are translated at exchange rates in effect at the end of the year; and expenses are translated at average rates for the year. Gains and losses from translation of foreign currency into the functional currency are included in current results of operations. The Company's reporting currency is the United States dollar. The Company translates financial statements into the reporting currency as follows: assets and liabilities are translated at the rates of exchange on the balance sheet date, and revenues and expenses are translated at average rates of exchange during the period. The resulting translation adjustments are included as part of other comprehensive income.

Impairment of Long-Lived Assets

Management of the Company periodically reviews the net carrying value of its capital assets. These reviews consider the net realizable value of each asset to determine whether a permanent impairment in value has occurred and the need for any asset write-down. An impairment loss will be recognized when the estimated future cash flows (undiscounted) expected to result from the use of an asset are less than the carrying amount of the asset. Measurement of an impairment loss will be based on the estimated fair value of the asset if the asset is expected to be held and used.

Depreciation

Assets are recorded at cost. Expenditures for major additions and improvements are capitalized; minor replacements, maintenance and repairs are charged to expense as incurred. When assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period.

Income Taxes

The Company accounts for income taxes in accordance with FASB ASC 740, Income Taxes. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts and tax bases of existing assets and liabilities and are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded to reduce the deferred tax assets, if there is uncertainty regarding their realization.

NEWPORT GOLD, INC.
Notes to Consolidated Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (continued)

FASB ASC 740 also addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FASB ASC 740, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the consolidated financial statements from such a position should be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. FASB ASC 740 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of FASB ASC 740.

Loss Per Share

The Company computes earnings per share in accordance with ASC 260, Earnings per Share. Under the provision, basic earnings per share are computed by dividing the net income (loss) for the period by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing the net income (loss) for the period by the weighted average number of common and potentially dilutive common shares outstanding during the period. There were no potentially dilutive common shares outstanding during the period.

Other Comprehensive Income

The Company follows US GAAP, "*Reporting Comprehensive Income*", which establishes standards for the reporting and display of comprehensive income, its components and accumulated balances in financial statements. Comprehensive income consists of net income and other gains and losses affecting stockholders' equity that under generally accepted accounting principles are excluded from net income. For the Company, such items consist primarily of foreign currency translation gains and losses.

Asset Retirement Obligations

The Company has adopted the provisions of US GAAP, "*Accounting for Asset Retirement Obligations*". The basis of this policy is the recognition of a legal liability for obligations relating to the retirement of property, plant and equipment, and obligations arising from the acquisition, construction, development or normal operations of those assets. Such asset retirement costs must be recognized at fair value when a reasonable estimate of fair value can be estimated in the period in which the liability is incurred. A corresponding increase to the carrying amount of the related asset, where one is identifiable, is recorded and amortized over the life of the asset. Where a related future value is not easily identifiable with a liability, the change in fair value over the course of the year is expensed. The amount of the liability is subject to re-measurement at each reporting period. The estimates are based principally on legal and regulatory requirements.

It is possible that the Company's estimates of its ultimate reclamation and closure liabilities could change as a result of changes in regulations, changes in the extent of environmental remediation required, changes in the means of reclamation, or changes in cost estimates. Changes in estimates are accounted for prospectively commencing in the period the estimate is revised. No liability has been recorded as the Company is in the exploration stage on its properties and, accordingly, no environmental disturbances have occurred.

Fair Value of Financial Instruments

Financial assets and liabilities recorded on the accompanying balance sheets are categorized based on the inputs to the valuation techniques as follows:

Level 1 - Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the company has the ability to access at the measurement date (examples include active exchange-traded equity securities, listed derivatives and most United States Government and agency securities).

NEWPORT GOLD, INC.
Notes to Consolidated Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value of Financial Instruments (continued)

Level 2 - Financial assets and liabilities whose values are based on quoted prices in markets where trading occurs infrequently or whose values are based on quoted prices of instruments with similar attributes in active markets. Level 2 inputs include the following:

- Quoted prices for identical or similar assets or liabilities in non-active markets (examples include corporate and municipal bonds which trade infrequently);
- Inputs other than quoted prices that are observable for substantially the full term of the asset or liability (examples include interest rate and currency swaps); and
- Inputs that are derived principally from or corroborated by observable market data for substantially the full term of the asset or liability (examples include certain securities and derivatives).

Level 3 - Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Availability of observable inputs can vary and is affected by a variety of factors. The Company uses judgment in determining fair value of assets and liabilities and Level 3 assets and liabilities involve greater judgment than Level 1 and Level 2 assets or liabilities.

Stock Based Compensation

The Company accounts for share-based compensation in accordance with ASC Topic 718, Compensation—Stock Compensation (ASC 718). Under the provisions of ASC 718, share-based compensation cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity grant).

NEWPORT GOLD, INC.
Notes to Consolidated Financial Statements

NOTE 3 – FINANCIAL INSTRUMENTS

Fair Value

The carrying values of cash and cash equivalents, and accounts payable and accrued liabilities approximate their fair values because of the short-term maturity of these financial instruments. The fair values of due to related parties cannot be reasonably estimated, as no liquid and active market exists for such instruments.

Interest Rate Risk

The Company is not exposed to interest rate risk as the Company has no interest-bearing financial instruments.

Credit Risk

The Company is exposed to credit risk with respect to its cash and cash equivalents; however, this risk is minimized as cash is placed with major financial institutions.

Currency Risk

The Company is exposed to foreign currency fluctuations to the extent expenditures incurred by the Company are not denominated in the functional currency.

NOTE 4 – BUSINESS COMBINATION

Background and Nature of the Transaction

On March 26, 2026, the Company entered into a Share Exchange Agreement (the "Agreement") pursuant to which it acquired 100% of the membership interests of the following entities, each of which became a wholly owned subsidiary of the Company:

- **ROI Dealership Consulting, LLC** (doing business as "NFI Empire"), a Pennsylvania limited liability company;
- **NFI Holdings, LLC**, a Pennsylvania limited liability company; and
- **NFI Auctions, LLC**, a Pennsylvania limited liability company

The acquisition has been accounted for as a business combination in accordance with **ASC 805 – Business Combinations** (or IFRS 3 – Business Combinations, as applicable). Under the Agreement, the Company exchanged shares of common stock owned by majority shareholder for 100% of the membership interests of the NFI Entities. As a result of the transaction, the NFI Entities are wholly owned subsidiaries of the Company.

Consideration Transferred

The total consideration transferred in connection with the acquisition consisted of the following:

Component	\$
Shares issued	76,068,750
Share Price at Acquisition Date	\$0.004
Total consideration transferred	\$304,275.00

The fair value per share at the acquisition date was determined using the closing market price on March 26, 2026

Purchase Price Allocation

The Company has allocated the total consideration transferred to the fair value of the identifiable assets acquired and liabilities assumed at the acquisition date. The following table summarizes the preliminary / final purchase price allocation:

	Fair Value at March 26, 2026
Assets Acquired	
Cash and cash equivalents	-\$14,835.00
