About Us

Tatars Inc. is a mining and metals company operating in five continents around the world. As an international and diversified supplier of raw materials to the global foundry, steel and other metal related industries, TATARS Inc. has built a strong and global network of representatives and business partners.

TATARS

Products

Our materials are being supplied in accordance with international standards and norms or specifications from sources around the world in a variety of forms and therefore we are well positioned to meet broad array of material's specifications to keep maximum commitment along with demands of our customers. In modern world of tight competition and narrow profit margins along with trading activities our company is also dealing with consulting in metallurgical materials sourcing, marketing and pricing.

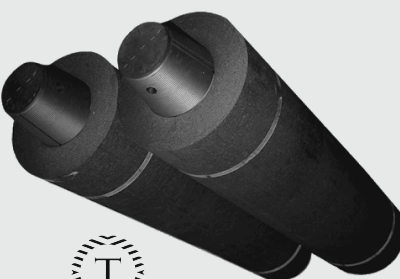

Tatars Inc. is an important supplier of Bulk and Noble alloys to the carbon and stainless steel industry. We can rapidly provide products of most grades and sizes, so do not hesitate to contact your local sales office or representative in case of urgent order. Tatars Inc. delivers pig iron, silicon carbide, foundry coke, carbon and technical products to the foundries, as well as specialty products to the welding, refractory and dense media industries worldwide. We carry regular inventory in warehouses close to customers for most pig iron and foundry products, including technical products. This allows us to perform just-in-time deliveries.

Tatars Mine's focus is on exploring, mining and processing mineral resources with minimal impact on the environment. The Tatars Group exports top-quality materials to customers in more than 25 countries via well-located distribution centers all over the world.

Tatars Inc. delivers metals in a large variety of shapes, forms, specifications and brands to various industries worldwide. As a partner of both producers and consumers we use all available instruments to quote real-time prices and mitigate risk around the clock.

For all production fields in the iron & steel industry, in which refractory technology is required, we offer concepts and solutions that are always matched precisely to individual customer situations. Hereby, we are backed by our comprehensive range of refractory products.

Through highly engineered, industry-leading technical services and solutions and indispensable graphite electrode products, we help electric arc furnace operators increase productivity and decrease costs.

Tatars Group specializes in:

FERRO ALLOYS

- Ferro Silicon Manganese
- Ferro Silicon
- Ferro Manganese
- Ferro Chrome
- Ferro Molybdenum
- Ferro Vanadium
- Ferro Phosphorus
- Ferro Titanium
- Ferro Boron
- Ferro Sulphur
- Ferro Niobium
- Ferro Wolfram
- Ferro Nickel

NON FERROUS

- Silicon Metal
- Chrome Metal
- Magnesium Metal
- Manganese Metal

BASE METALS

- Aluminium
- Nickel
- Copper
- Lead
- Zinc
- Tin

MINOR METALS

- Antimony Metal
- Cadmium Metal
- Chromium Metal
- Cobalt Metal
- Manganese Metal
- Molybdenum Metal
- Niobium Metal
- Selenium Metal
- Silicon Metal
- Wolfram Metal
- Zirconium Metal

MASTER ALLOYS

- Nickel Magnesium
- Aluminium Titanium Boron
- Aluminium Chrome
- Aluminium Manganese
- Aluminium Silicon
- Aluminium Strontium
- Silicon Calcium
- Calcium Carbide
- Aluminium Nickel
- Aluminium Cobalt
- Copper Phosphorus

PIG IRON

- Nodular Grade Pig Iron
- Foundry Grade Pig Iron
- Basic Pig Iron
- Steel Scrap

INOCULANTS

- Ferro Silicon Magnesium
- Ferro Silicon Zirconium
- Ferro Silicon Barium
- Ferro Silicon Aluminium
- Ferro Silicon Calcium

MINERALS / ORES

- Chromite Ore
- Iron Ore
- Manganese Ore
- Fluorspar
- Alumina/ Bauxite
- Copper ore

WATER TREATMENT

- Ductile Iron Pipe
- Aluminium Sulphate
- Chlore

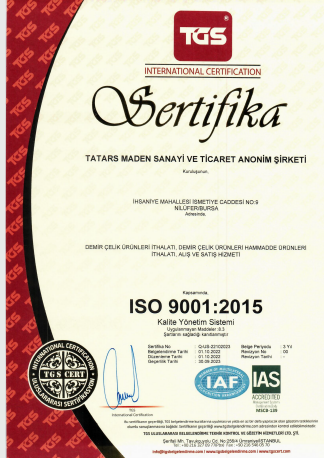

OTHERS

- Graphite Electrode
- Metallurgical Coke
- Foundry Coke
- Silicon Carbide
- Chromite Sand
- Magnesium Granule
- Graphitized Petroleum Coke
- Calcined Petroleum Coke
- Steel Shot
- Steel Grit
- Foundry Resin
- Foundry Coating
- Ceramic Foam Filters
- Refractories
- Ferro Titanium Cored Wire
- Calcium Silicon Cored Wire
- Al Cored Wire
- Crucibles
- Mica Sheets & Rolls
- Fluxes
- Stainless Steel Scrap
- Stainless Steel and Non-Ferrous Metals
- Copper and Ingot Mould
- Ceramic Pipe
- Rolling Cylinder and Rings
- Aluminium Granular, Scrap and Ingot
