Fake Artist:

Caesar Chauncey Gutierrez

Fake Artist Name: Caesar Chauncey Gutierrez

- Caesar Chauncey Gutierrez is my fake artist and he is a video game designer who came from the San Fernando Valley. He is 21 years old going 22 and made his debut in 2017 with his game LA Run and Gun.
- I took ideas From Dan Paladin and mashed them up to be a side scrolling, fast pace, run and gun with elements of a beat em up, and homage to dan. So I then I needed a theme for it. I was thinking and then it hit me. L.A Run and Gun.

What is his work based on?

Caesar Chauncey Gutierrez's work is based off everything urban and an absurd inappropriate sense of humor. He iplaments his artwork into his video games to entertain you and make you laugh.
