# Raps 1-3

## RAP 1

I am feeling sad that the break is over but happy to see another day. I am also tired of being at home and not being able to go out and enjoy but happy that my family and I are safe.

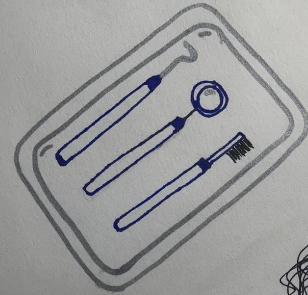

## RAP 2

An artist can be anyone who uses their creativity to create an interesting piece. An artist creates their pieces with anything. An artist inspires with their work.

All of the colors are dull except for her skin and the flag she is wearing.

She seems to be part of the dripping background.

She is proud of her country.

I would want to know why she is looking up.

There is a meaning behind this picture if you dig deeper.

## RAP 6

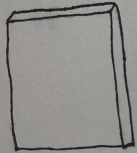

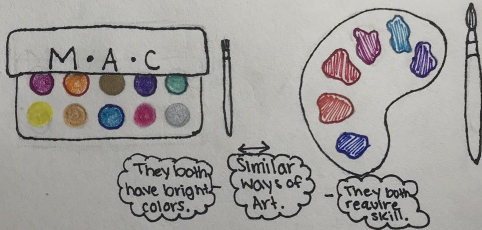

Artists need inspiration for their work.  
Using other work helps find a starting point.

Sometimes they enjoy an artists work and they want to recreate it or add something to it.

# Raps 7-9

## RAP 7

I will paint myself on a canvas with the colors and scheme, John use. I will paint myself doing makeup, something that is artistic as well. Painting and doing makeup is two similar concepts.

- Canvas
- Paint brush
- Paint
- Pencil

## RAP 8

I will add bright colors in many areas like the hair.

He uses a variety of colors that I will use on this drawing.

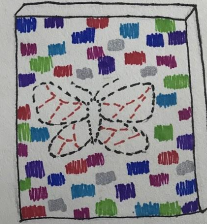

I will use colors like these bright ones.

I will show the makeup with the colors.

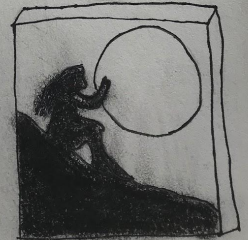

He mainly uses these patterns when painting.

## RAP 9

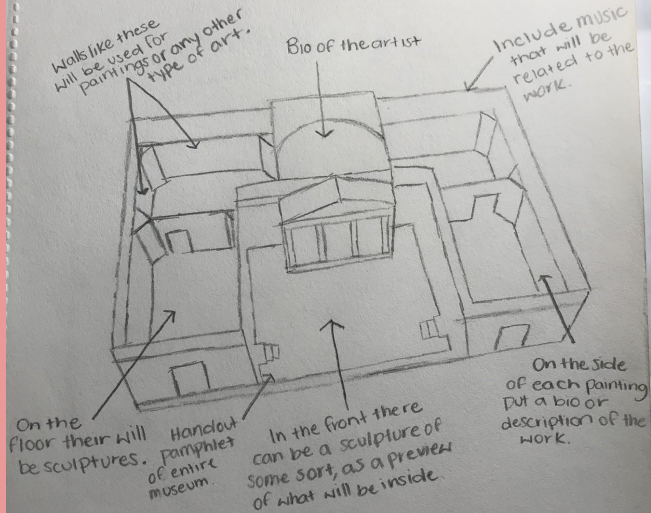

Art can define a person. You don't necessarily need to know them because sometimes their art says it all. Even the smallest detail matter. I don't think there is such thing as fake artist because their work is what matters.

## RAP11

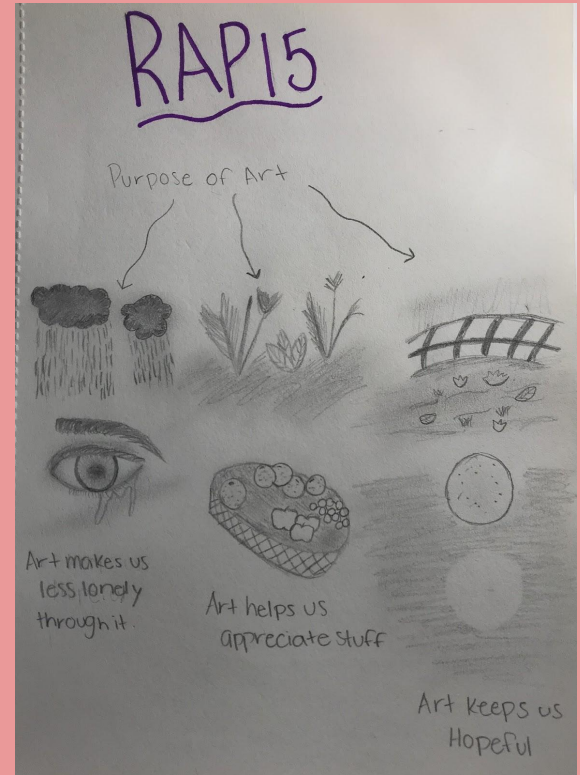

I practiced the idea of "makeup is art", this will be the concept of my exhibition. I will portray this idea through artwork like this. I will include more ideas that explain the concept.
