Address feelings: How are you feeling? It's personal

I'm feeling neutral, I'm excited for school, but also feeling bored or calm. I'm feeling like an ocean.

The ocean  
is never  
consistent

Why steal a Da Vinci?

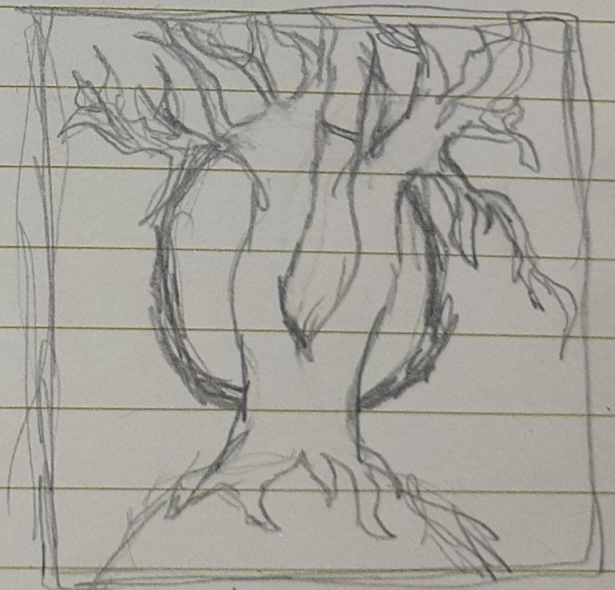

Why do artists steal ideas/influences for their work?

Artists don't necessarily steal, they become inspired to recreate, or personalize ideas.

Be an art detective. Look closely for the details that define the work.

\* I might make several art pieces with the legos I use.

\* I was think of not stacking the legos but instead glueing them so that they stick together and then glue them so that they look like they are barely hanging on.

\* I was also thinking about making a clay sculpture of a tree.

Can you manufacture an influencer:  
fake famous.

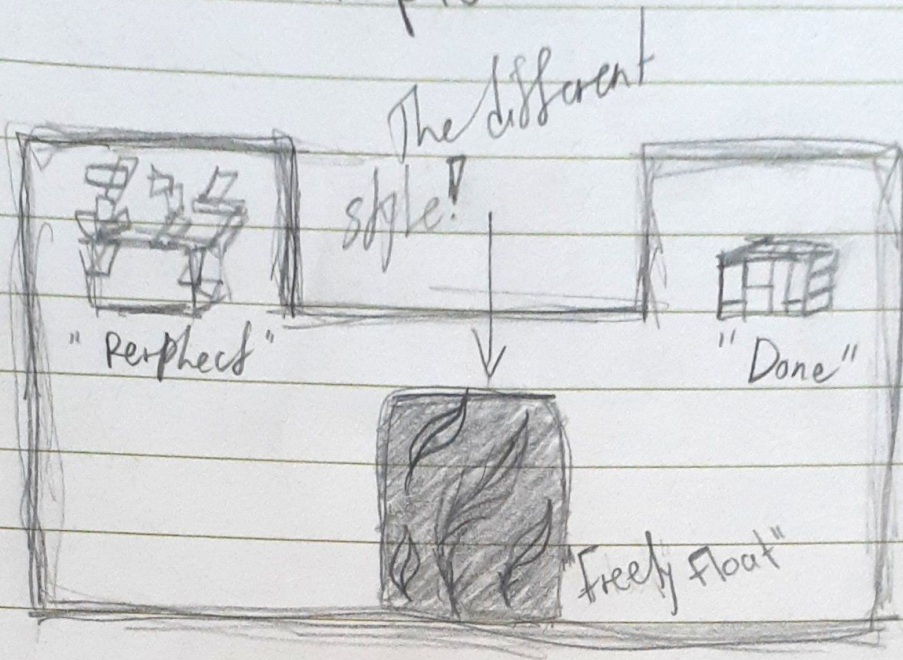

I think the reason why people love seeing art is because the time & emotion put into artwork. So if the artist didn't pour out their emotions or thoughts, then I guess you could say that artist is fake.

I made 2 pieces that were inspired by Aiweiwei but I think I'm going to experiment with a different style.

Artwork is practice not Homework

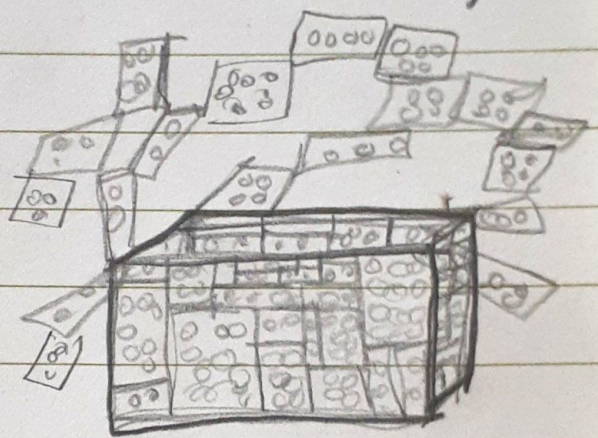

- Specifically I have 2 series.

The first was Legos. The second was an artstyle that I created on my own.

Series 1

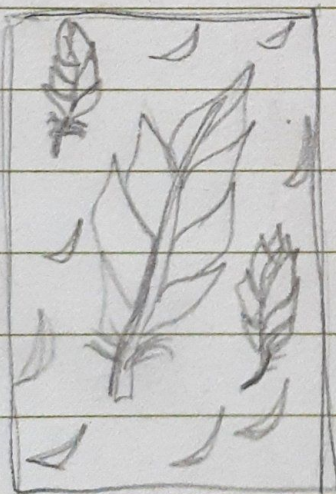

"Confined"

"Perpfect"

Series 2

I might be adding a few more pieces to this series. (I really liked it!)

"To Fly"

"Still"

What is the purpose of art?

The purpose of art is to show hope.  
It also shows one's emotion.
