### Historical Draw - Mt: Create History

Create a narrative. Imagine yourself an artist that addresses social, political or environmental change. / Imagine yourself an influential historical figure.

DRAW WHO YOU WILL BE BY WHAT YOU WILL DO.

I have never been a political person nor a social person but if I were an influential figure I would talk a lot about environmental change. I would like to focus on how to fix the problems we face in this world because of "man" made things are starting to affect our environment and ~~not~~ not many people know this but we share this world with ~~not~~ not only other humans but with animals! This is also their home too and we should start taking ~~more~~ better care of Earth.

Why steal a da Vinci?

Why do artist steal ideas/Influences for their work?

I believe when people steal other people's artwork <sup>there</sup> can be many reasons why! I believe it could be they look up to that artist & wanna do something similar that they created unfortunately when it comes to art once an idea is out there you can't replicate that anymore but after all Art is about originality.

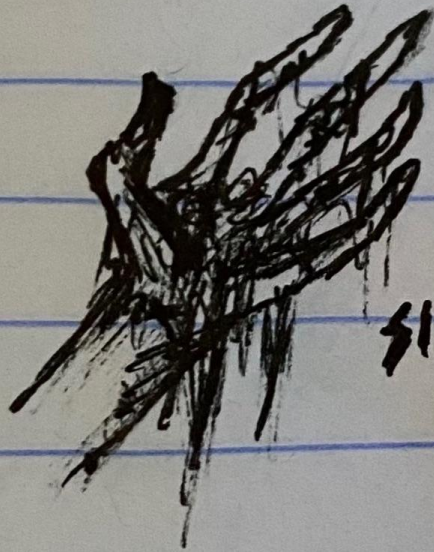

DON'T BE A COPY

Artwork Is Practice

NOT HOMEWORK

Today Practice your Exhibition thumbnails.

Ideas Precede Execution. Draw them. Explain how

I agree on how drawing isn't homework unless you find it as a hobby ~~but~~ but my thumbnail for my Exhibition is ~~supposed~~ supposed to be "busy". When you are a overthinker your mind is constantly busy and loud so I would like to ~~bring~~ bring that to light as well.

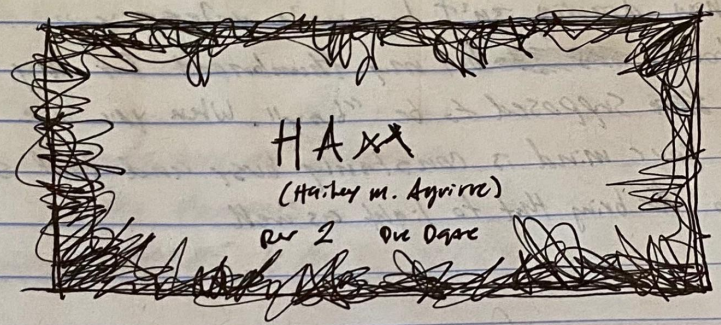

Rap 12

Create a Grand Entrance for your Exhibition

Draw vs ~~experience~~ experience. Draw what u see

Well my first google slides is ~~the~~ going to look a lil crazy to ~~catch~~ catch the audiences attention

Rap 15

What's the purpose of art?

I believe the purpose of art is a coping mechanism. When you look at art it's a way of self expression but also how it works your creative side of brain. I know there are many definitions of art but mainly involves originality & ~~creativity~~ such as imagination of unreal.
