

Art Portfolio Period 5

M.R.

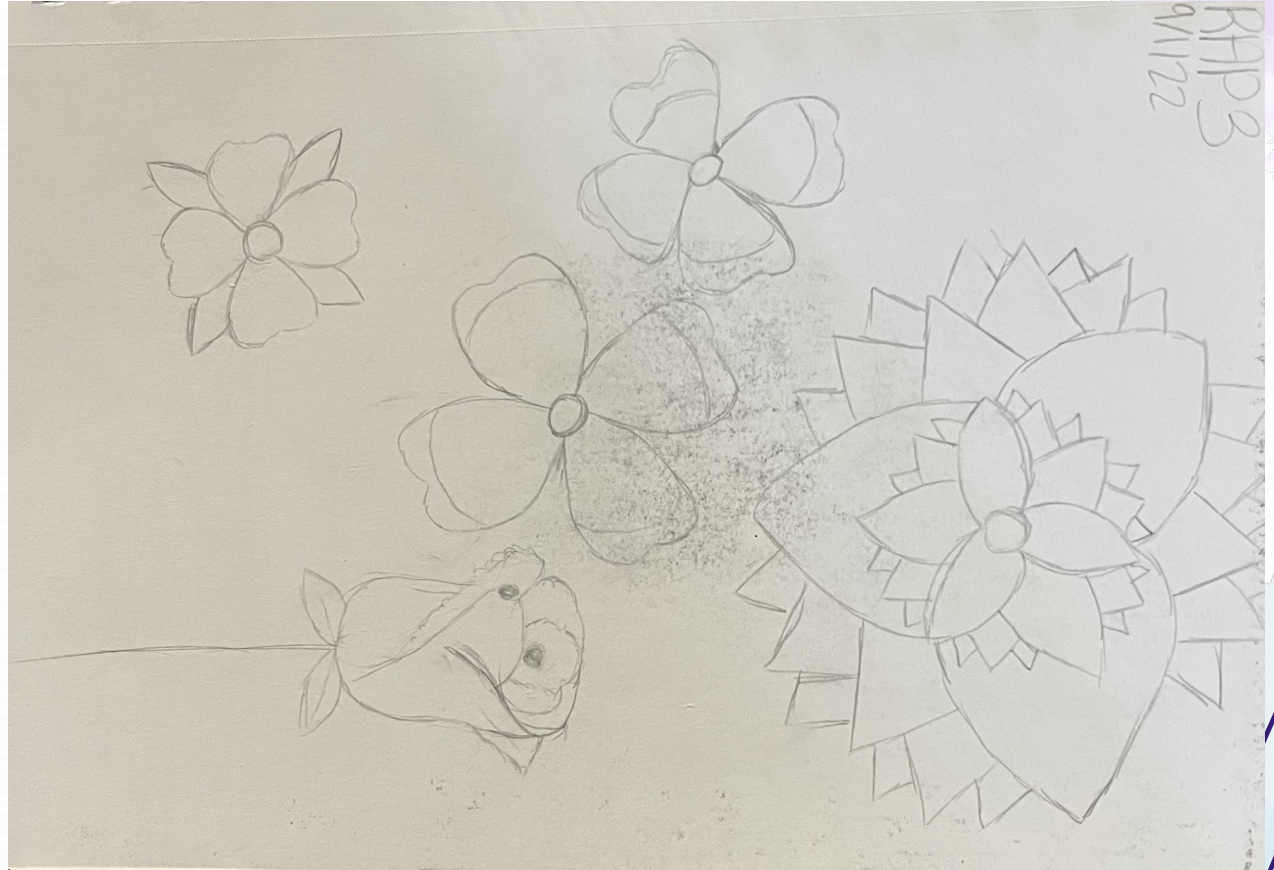

Raps

Chapter 1

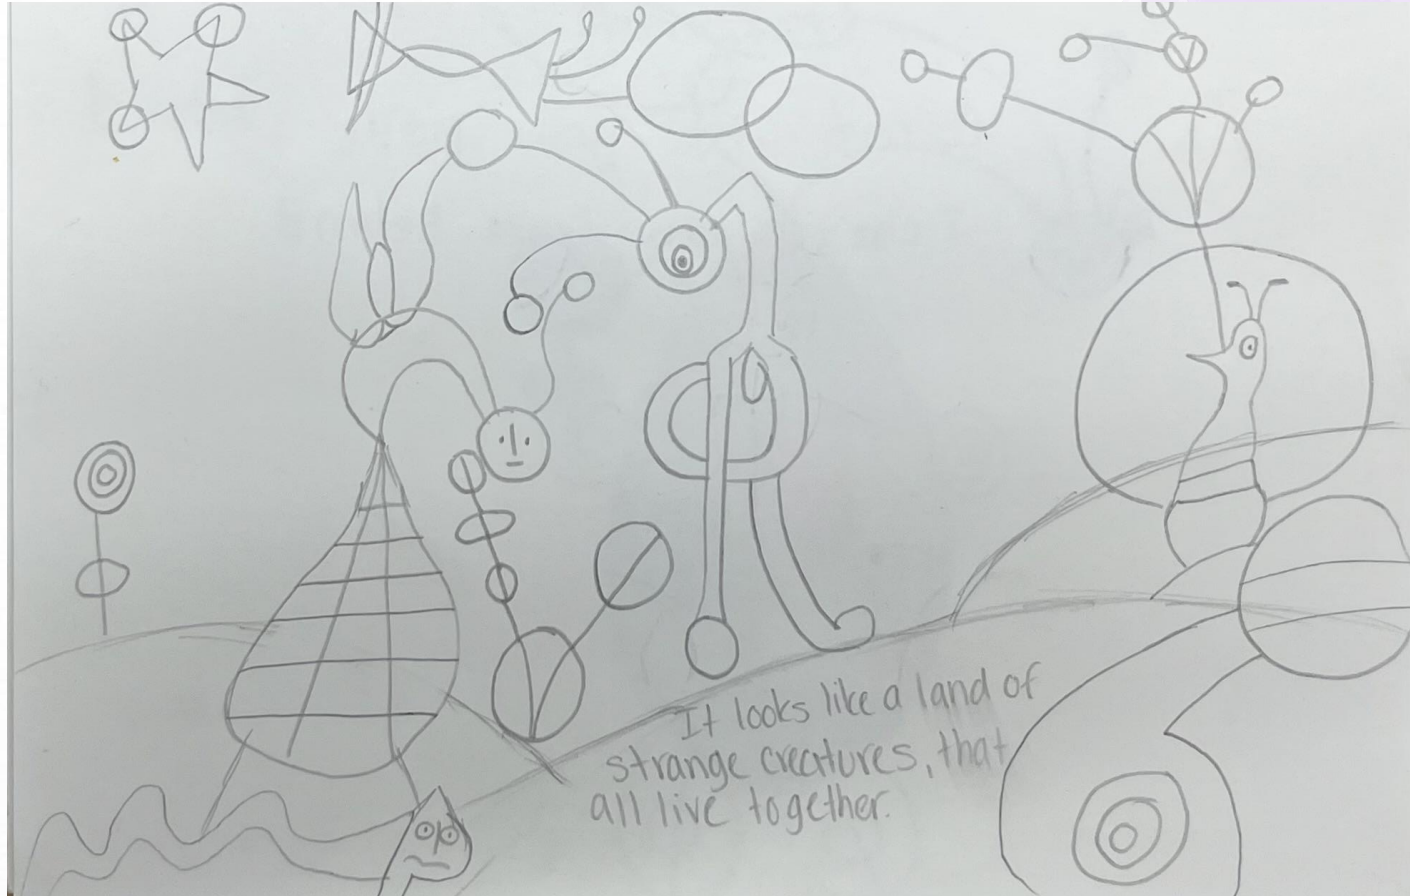

3. What is beauty?

For this drawing I just immediately thought of flowers and how pretty they are. So I searched different flowers and drew them.

15. Draw a Joan Miro story

I found this story online and thought it was cool because it seems like a bunch of different creatures that live on an island together.

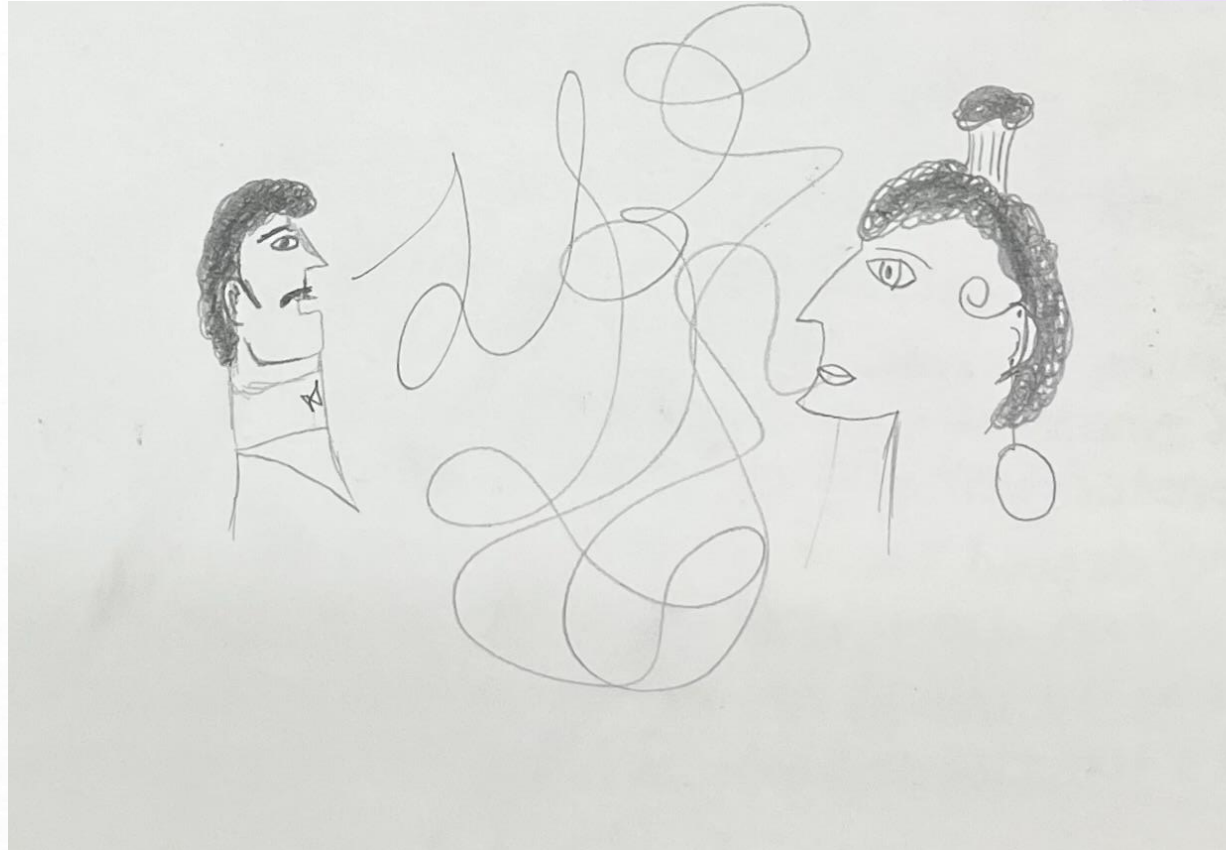

16. Design a Joan Miro plush toy

I had found one of Joan Miro's characters and I thought the character would be a perfect plush toy. It reminded me of the squishamellow pillows.

19. Draw a conversation

For this drawing I used the reference of Saul Steinberg and went for a couple having a normal day conversation.

Art Production

Chapter 2

Shantell Martin

For this drawing I just let the line lead me and allowed my hand to float across the page and do its own thing. I added some faces like how Shantell Martin did and added some letters and little figures.

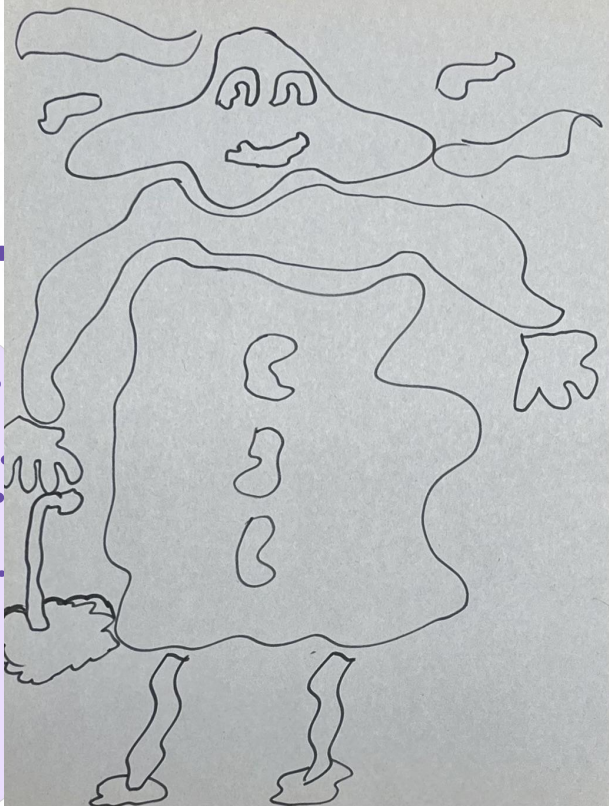

Exquisite Corpse (collage)

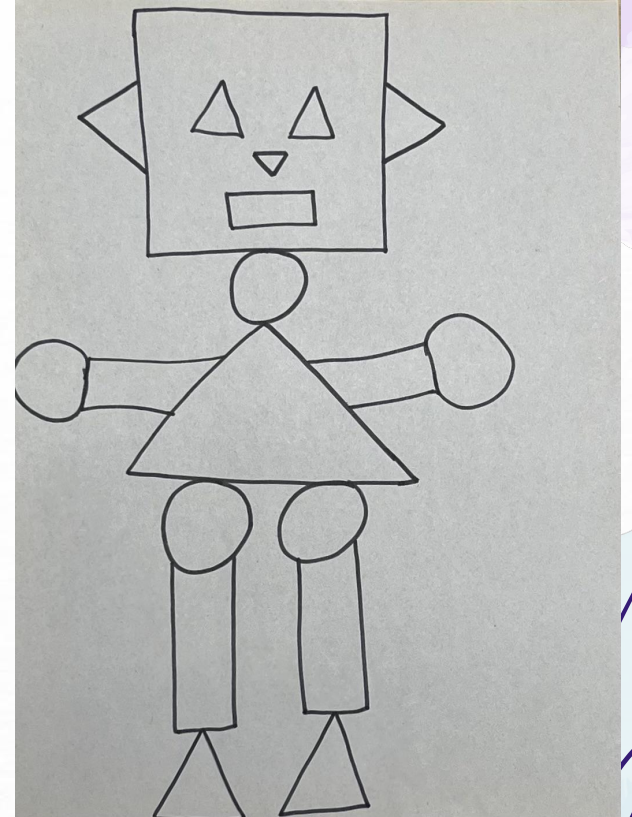

For this it was hard to find stuff I liked till I found the most random body parts and stuck them together. Then I found the phone and thought that would be funny to have.

Shape Figures

For these drawing I
Had just drawn
what had come to
my mind. One is
made of organic
shapes and the
other is geometric.

Shape Figures (watercolor)

These I really copied from my original shape figures and just switched up a few things. I experimented with the watercolors and added as much color as possible everywhere.

Joan Miro Painting

For this painting I started with a big creature then added many creatures inspired from Joan Miro paintings.
