Rap 4:

Donna Bates

American Woman, 2016b

By just observing the image the contour and shading stands out to me. The shading around the collar bone and chest are so perfectly drawn that it almost appears 3D. I noticed the American flag warped around her shoulder so that must symbolize some type of republicanism. I say this because the dripping, worrisome color that slowly fades as it lowers leads me to believe that of a dark past.

## Rap 36:

Being an artist means many things such as, having and searching for inspiration because sometimes ideas won't come to you easily, seeing the beauty in everything, having joy for art (drawing/painting), having confidence in you and your artworks you create, never letting failure get in the way of your success, and knowing/finding your purpose.

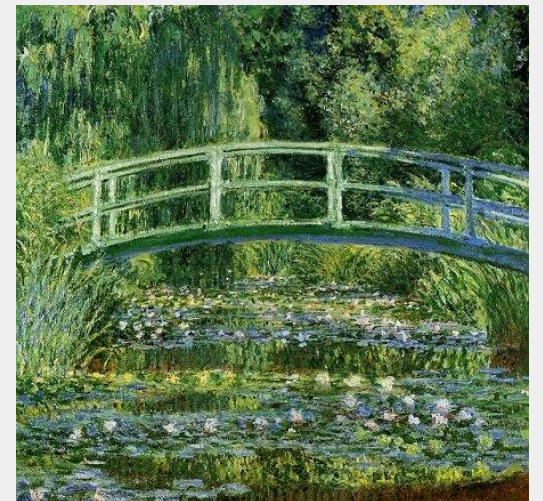

## Rap 37:

I don't really have a memorable cartoon but if I were to choose one it would be SpongeBob Squarepants, this cartoon is basically about someone in this case a sponge, who gets thrown all these scenarios/problems but tries to find or make the best of it.

## Rap 39:

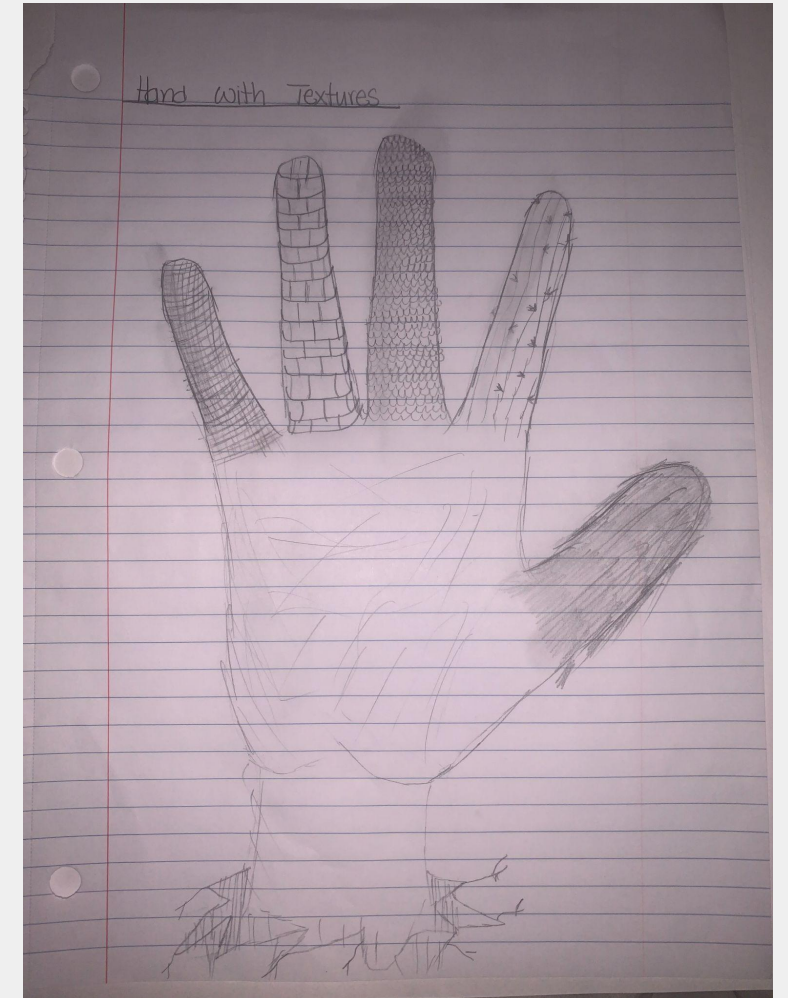

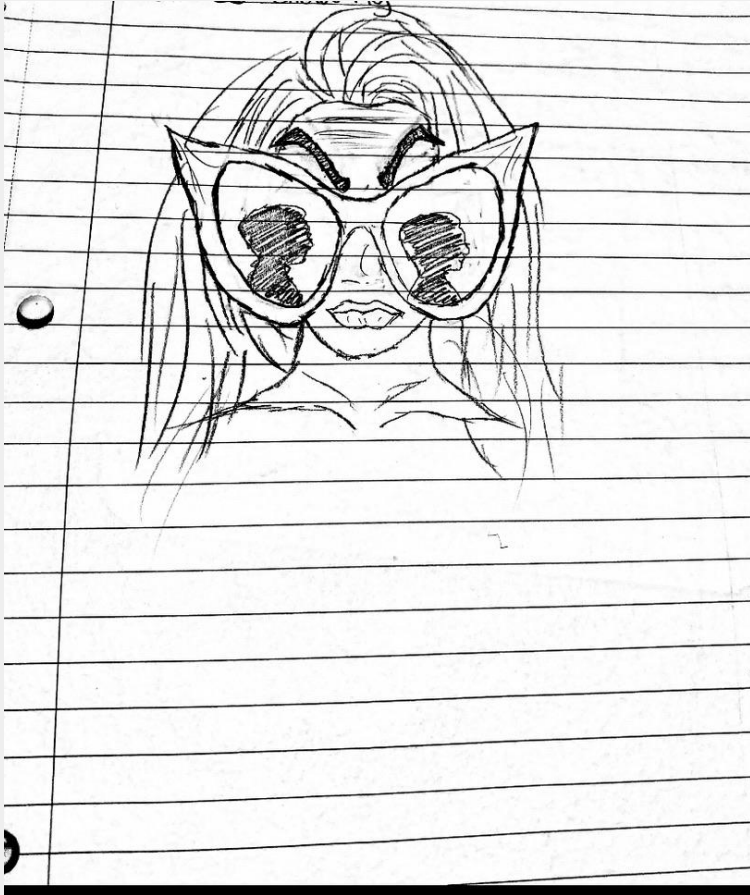

The artwork I investigated is called Water Lily Pond by Claude Monet. Just by looking at this artwork, I can tell how long it took and how much effort was put into it. This artwork is mostly green but you can clearly see the blend of colors which is beautiful. It is showing a very green garden with a lot of grass and flowers, which is a beautiful representation of nature.
