Ajay Posadas Cadorna

Subject: Drawing Diary

Dear Donors Choose,

Thank you for lending the drawing journal to us art students. Lending us this art book has allowed us to indulge in our own drawings and improve our drawing. It also has allowed us to share our drawings to everyone and showcase how much we've improved in such a short amount of time. Although it may have been difficult to consistently draw in it, I'm thankful for the experience. I'm sure everyone else had an enjoyable experience as well utilizing these drawing journals Donors Choice has lended us.

My experience with this drawing journal was very interesting. I simply drew for the fact it was an assignment, but soon it became a habit. I actually started enjoying drawing and started drawing consistently in my free time not only to improve, but I also genuinely enjoyed it. It also inspired me to just start trying digital drawing in which I bought my own drawing tablet. Now I draw occasionally for fun in my free time and also draw for my friends as gifts or stickers for myself.

Again, thank you for your donation!

Sincerely,

Ajay Posadas Cadorna
