

Dear Donors Choose,

Thank you so much for the journals you've provided for our class. They've been so much fun to draw in and share. It keeps me occupied and honestly entertained when I get bored. I've had a great time using your journals and I thank you again for it.

The journal is a fairly good size, compact enough for me to carry around and big enough to be able to draw in easily. I've been drawing in it at least once a week, most of the time it's usually twice because of how easy it is to make time for it. It's durable enough that I can put it almost anywhere for easy access at any time and not have to worry about it being damaged. It's a great product all around and I'm so thankful that you have provided me with it.

Sincerely,

Issac Gomez
