

Thank You Letter

Date: May 9, 2022

Marc John Aya

Subject: Drawing Diary

Dear Donors Choose,

I would like to thank you for funding the Drawing Diaries for our school's art class. The Diaries you donated were used to help us build good work habits and encouraged us to move forward and improve. The Diaries were used, as an assignment for us students to become consistent in drawing by drawing in it every day. Not only did it improve my consistency in doing my work, but it also helped me accomplish many pieces I'm still proud of.

Through the Drawing Diaries, I was able to see how perseverance in a craft can lead to mastery. I myself am personally interested in pursuing art in the future and these Drawing Diaries you donated helped me experience what it would be like to draw and create on a daily basis. It is important for me and many teenagers to see and practice what perseverance is and what it brings you. Though the Drawing Diaries weren't for everyone it definitely helped me and my art journey. I overall enjoyed this experience very much and would look forward to other students after me experiencing the same feelings.

Thank you for your donation, and I hope you can give other students the same opportunity!

Sincerely,

Marc John Aya
