

Dear Donors choose,

First of all, thank you for donating the journals for the class, I'm really thankful for it. I'm saying it, being a person who enjoys and loves art a lot. To be honest, I felt bad when I was told that these drawing journals are donated because I couldn't help but think "What if the person who gave it needed more than me?" But even so, I appreciate it, again thank you very much for donating the drawing journals.

For a moment, I thought I wasn't going to draw too much on this journal because I love Drawing. However, sometimes I just don't have time for it or I just don't know what to draw, but I do have a lot of drawings done there already. Most of the things I drew there are characters or celebrities/artists I like, images I randomly find, some of them are sketches and some of them are not, but regardless I really enjoy drawing there.

So again, thank you very much!

Sincerely,
Yoemily
