

Intro to Art Digital RAP Portfolio

Period: 4

By

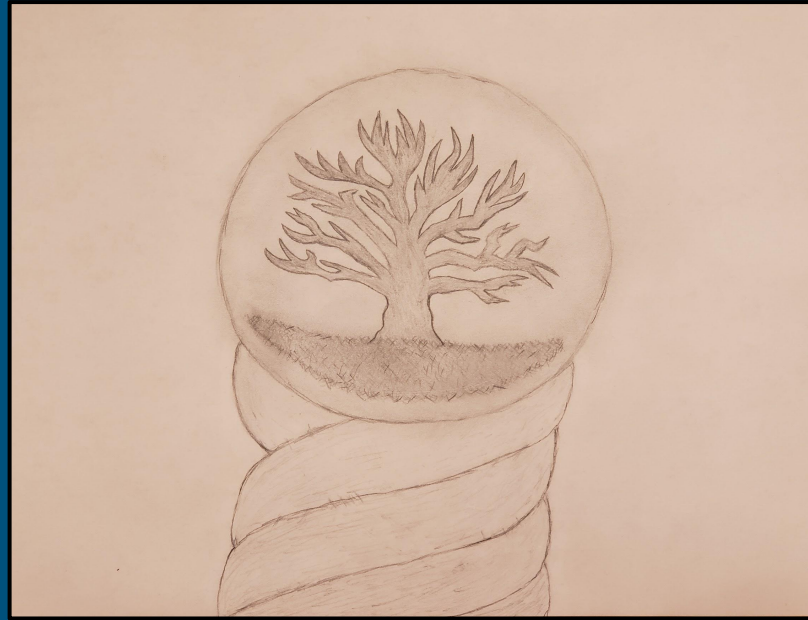

A.N.

Line: Shantell Martin Drawing

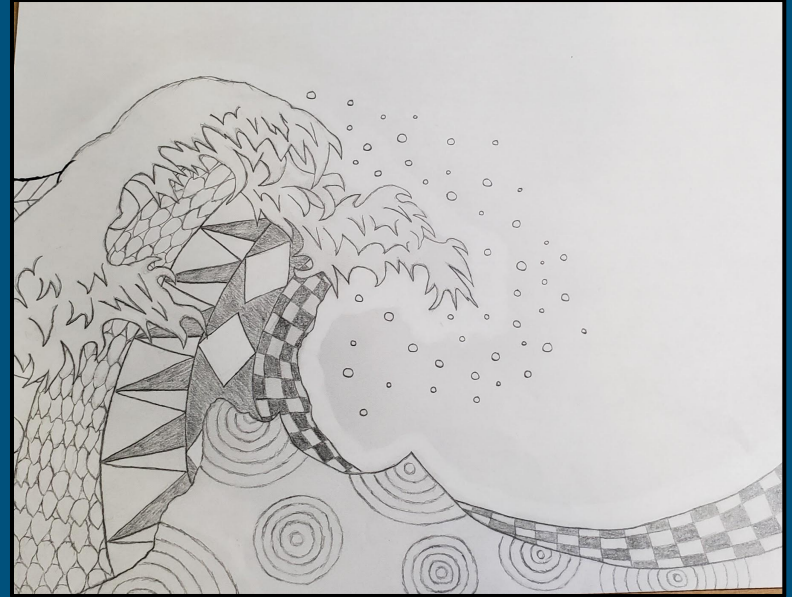

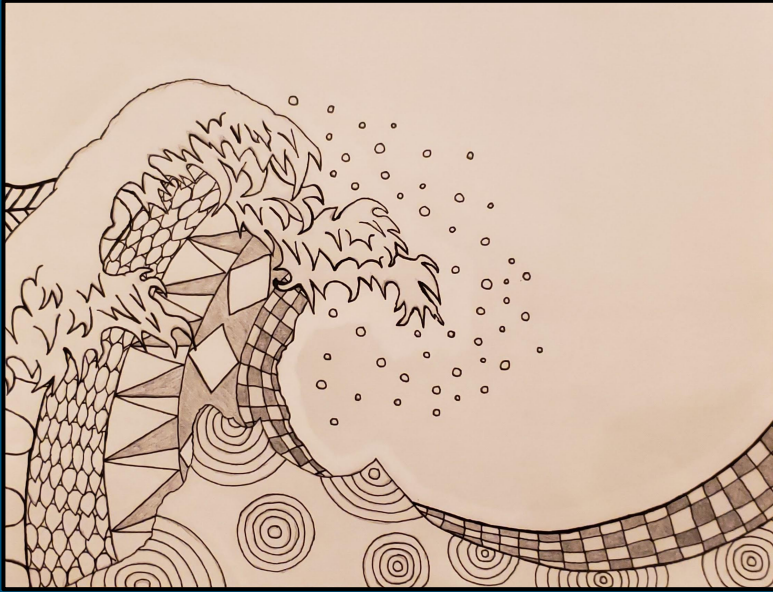

For this art production, we had to make a drawing that is inspired by the style of Shantell Martin. I drew anything that I had in mind like arrows and stick men for example.

Rap 6 - Show Me What You Think

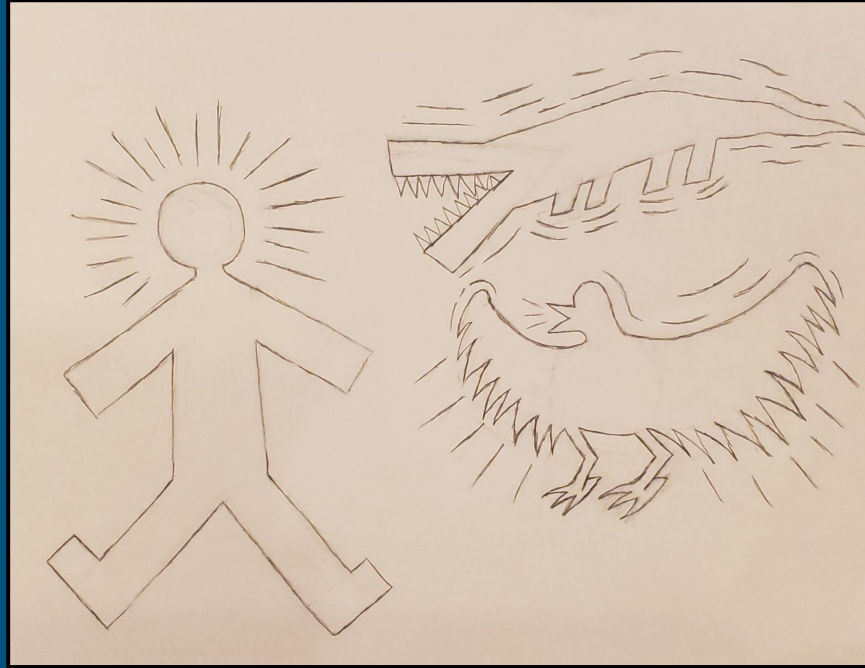

For RAP 6, we had to draw what's in our mind. I decided to draw a terrarium that has a tree without leaves.

Rap 7 - Create Your Own Zentangle

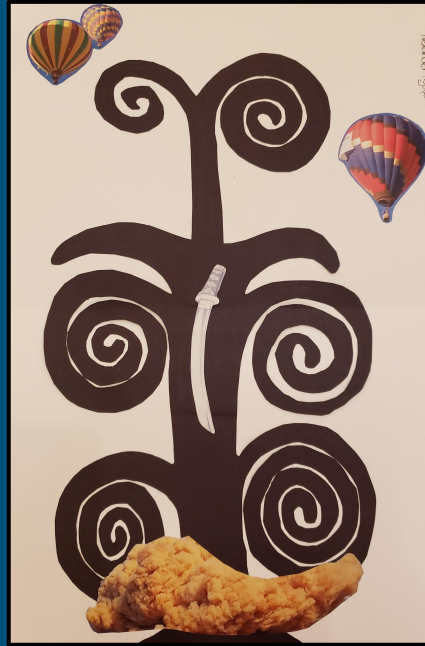

For RAP 7, we had to draw some “Zentangles”, which is an American method of drawing. We can get ideas from Pinterest, handouts, or Google Images. I chose to draw an imitation of Hokusai’s “The Great Wave off of Kanagawa”.

Rap 14 - Draw 2D Shapes (Flat Animals, Etc.)

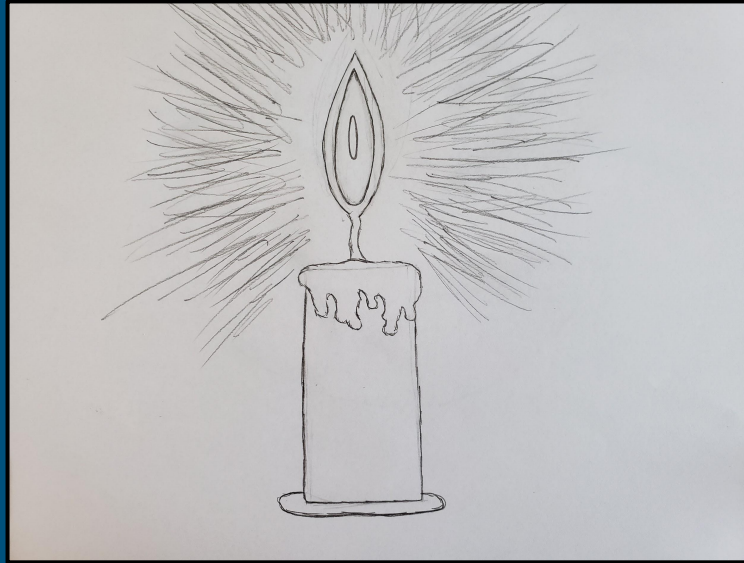

For Rap 14, we had to draw 2D graphic, yet identifiable animals in the style of Keith Haring. I drew a person, alligator, and a hawk.

Art Production - Spiral Tree

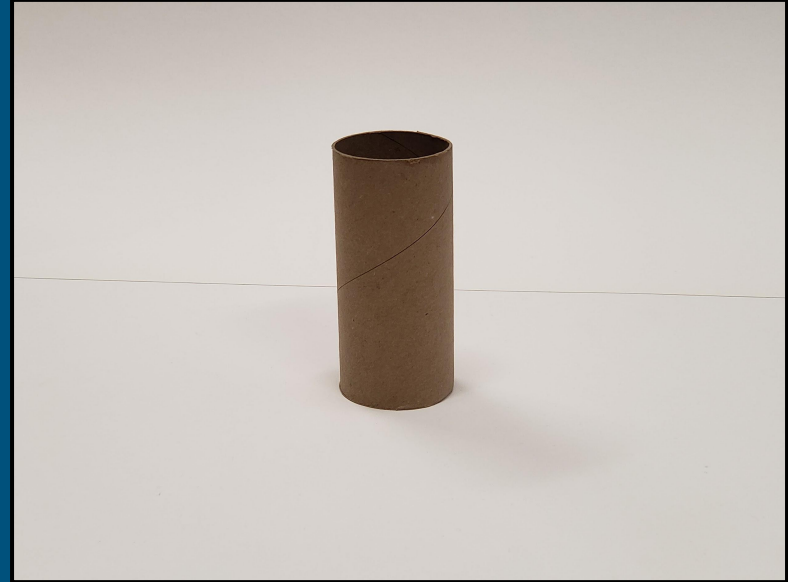

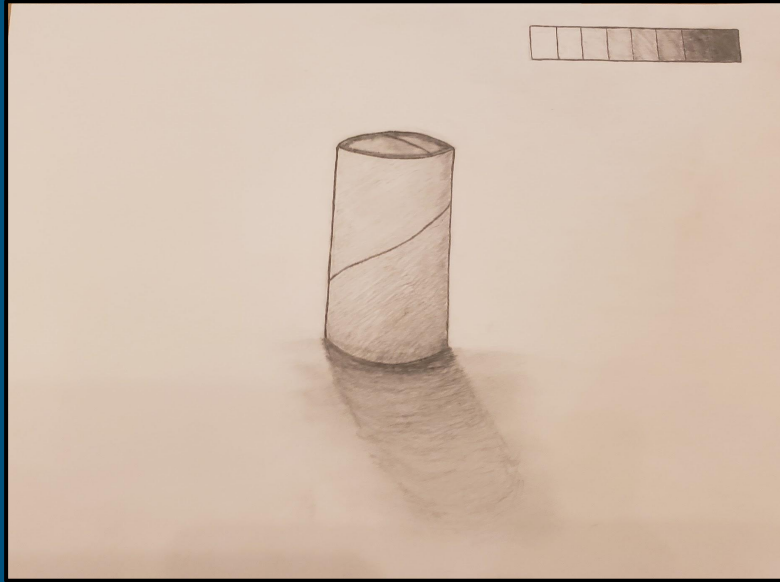

For this art production, we had to design black and white **cut outs** of spiral shapes to create a spiral tree, add the colored **cut outs** in collage technique to our spiral tree, and create a **story** thru our art.

Rap 21 - Solve Darkness With Light

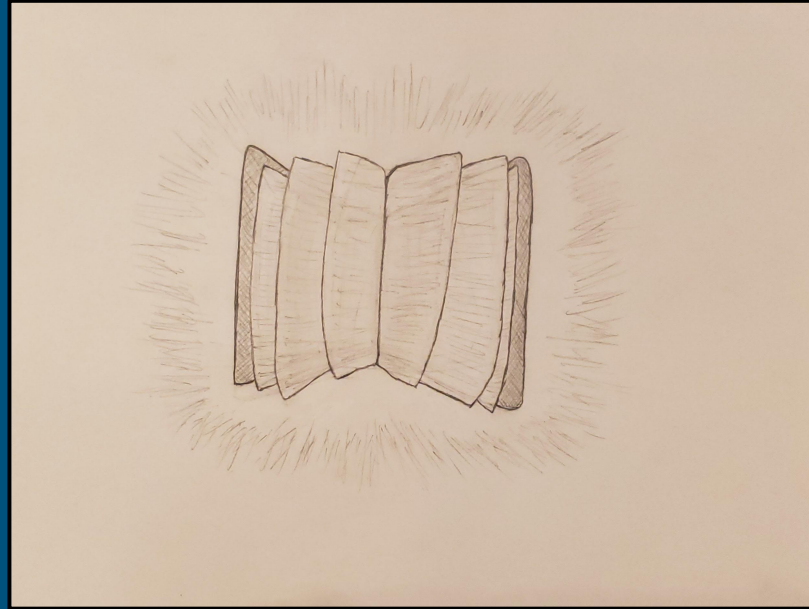

For Rap 21, we had to draw a solution to darkness with light. I decided to draw a lit candle illuminating light.

Art Production - Toilet Paper Roll

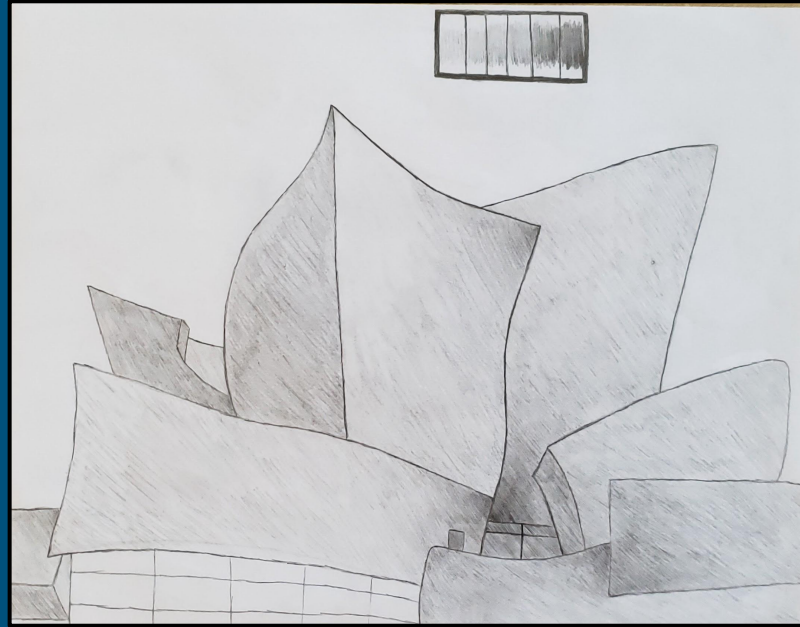

For this art production, we had to photograph the toilet paper roll on a clean white background. Draw the toilet paper roll from the same angle from the 3D form. Then draw the toilet paper roll from the 2D photo. And finally, reflect differences in drawing from a 3D form and a 2D shape.

Rap 23 - Draw Quality Education

For Rap 23, we had to create quality education according to us. I drew a glowing book.

Rap 26 - Draw A Building By Frank Gehry

For Rap 26, we had to draw a building by Frank Gehry. I chose to draw the Walt Disney Concert made by that architect.

Rap 27 - Draw An Alien: Friend Or Foe?

For Rap 27, we had to draw an alien. I decided to try to draw a Xenomorph from the movie “Alien”. (As you can see, it’s obviously a foe because it eats people.)

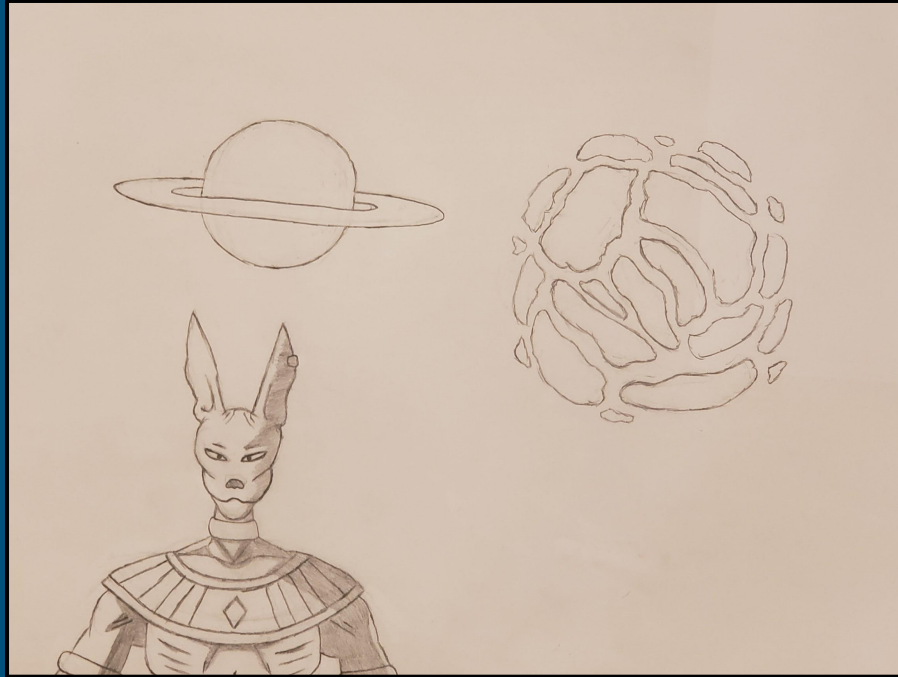

Art Production - 3D Collage Portrait

12/3/2021

For this art production, we had to use paper materials to create a collage portrait. The idea is that it is you, but it will suffice that it represents you in this 3D form. Use papers and glue stick. If there is any other material you would like to use, please ask me. I am looking to keep this completely covered in paper, that it represents a human (you) and it does not have to be Christmassy - it already is because of the ornament shape we know so well that goes on the Christmas tree. We will have a Christmas tree in the classroom to give it more meaning by this reference.

Rap 32 - Draw A Galaxy

For Rap 32, we had to draw a galaxy. I drew a planet exploding, Saturn, and a space person.
