

Powerful Cost-Effective Fly Control

ALCOPRO1 is a highly efficient glue board unit suitable for high-traffic areas, offering options for wall mounting or installation on flat surfaces.

The unit has a stylish design with a powerful 36W UV-A lamp attracting flying insects. Insects are trapped on a glue board, avoiding the problem of insect fragments from traditional fly traps.

Benefits

- **Highly effective** - Eliminates flying insects
- **Discreet design** - Can be used in public areas
- **Safe & hygiene** - No pesticides or flying insect fragments
- **Peace of mind** - Fulfils legal & health & safety requirements
- **Adaptable** - Can be wall mounted
- **Environmental** - Industry's lowest mercury (2.0mg) content, lead free, environmentally conscious option

Technical Specifications

Product name	: ALCOPRO1
Light source (W) (UV-A)	: 1 piece of 36-watt PL UV-A lamp
Glass protection	: Lamp is shatterproof sleeved
Electrical supply (V)	: 220-240V ~ 50-60Hz and 100-120V ~ 50-60Hz
Catch specifications (V)	: By means of long-life glue board (1 piece included)
Power consumption (W)	: 43
Weight (kg)	: 4
Material	: Plastic injection moulded housing and metal chassis
Degree of protection (IP)	: IP 20
Area Coverage	: up to 80m ²
Guarantee	: 2 years on electrical & mechanical defaults. Excludes lamp breakage, does not cover surges and voltage spikes due to load shedding & malicious damage
Int. building norm	: acc. IEC-335-259 int. standard for insect exterminators
Lamp life time (h)	: 9000 (*)
Dimensions (LxDxH) cm	: 48 x 11 x 25
CE-approval	: Yes
RoHS compliant	: Yes
Mounting position	: Wall mounted (optional holder for tabletop placement is available)
Cable	: 1,8 m long appliance cable included

After 9 000 hours a loss of 30 to 40% in efficiency has to be expected and lamps need to be replaced.
