Stained Glass Monthly Project Class (\$35.00) July 13, 2024 --- 10:00 - 3:00 PM

This stained glass project will consist of creating one 5"-6"" panel each month for six (6) months based on the design shown. The last class will be held for the final assembly of all pieces previously created. This is a fun filled class that meets each month to create these panels. You get to choose your glass for these panels and everything will be provided each month to include the pattern, tools, supplies, glass and instruction. And best of all it's very affordable. What a great way to learn this craft and learn to create small panels using various techniques. Then bring all your panels in for final assembly of a large (approx. 20") complete traditional stained glass window. Please enroll early as this class fills quickly.
