

JOIN THE PLOG-OLUTION!

Plogolution has been set up to help support fit and happy communities that are dedicated to protecting the environment so we can be proud to hand our planet down to future generations

Our aim is to help educate children about recycling and encourage them to take pride in their local environments. To that end we arrange school 'plogging' clubs, where pupils litter pick in the local area and then divide out the rubbish collected. All litter picked up is logged and entered into a centralised database.

How does it work?

One of the co-founders of Plogolution will come visit your school and can give either a school wide assembly presentation, or more class based workshop on the environment and the benefits of recycling.

We then ask children to sign up if they are interested in being part of a plog, with a maximum of around 15 children.

We will be on hand for your first plog and then will hand the reins over to a member of staff.

Starter kits

We have limited funding to provide starter kits to some schools. These will include:

- 15 branded t-shirts
- Biodegradable rubbish bags
- Litter pickers
- Gloves
