Please join us for a fun-filled day and support these two amazing charities! We will always remember these two wonderful women, let's come together to celebrate their lives and contribute to a life-changing cause!

ABOUT THE CHARITIES

AIM at Melanoma is globally engaged and locally invested in advancing the battle against melanoma through innovative research, legislative reform, education, and patient and caregiver support. Founded in 2004, AIM at Melanoma is the largest international melanoma foundation seeking the cure for melanoma. AIM at Melanoma's global initiatives are transforming how breakthroughs in research are being achieved. Visit the website to learn more about their Paradigm-Shifting Research Initiatives.

Ashley's family is dedicated to supporting AIM's mission and keeping their sweet daughter's memory alive through helping those affected by this disease.

Since 2014, the Team Becca Guild, in conjunction with the Seattle Children's and Strong Against Cancer, has been focused on creating a world where non-invasive pediatric cancer treatments lead to a 100% remission rate... a cure for kids' cancer.

In honor of our dear friend, Rebecca "Becca" Stevenson, we raise money and awareness for the amazing work being done at The Ben Towne Center for Childhood Cancer Research in Seattle.

Becca lost her own battle with stomach cancer in 2013 at the age of 34. In her life, she always fought for the needs of children, so we continue the fight in her honor.

Our goal is that someday childhood cancer will be treated no differently than an everyday virus – and that chemotherapy and radiation will become treatments of the past. Cancer immunotherapy is a groundbreaking approach that reprograms a child's own T cells – the white blood cells that fight infections – to find and kill cancer cells.

The results of the generous fundraising are undeniable with phenomenal patient response and progress. Now, 93% of patients who received the immunotherapy clinical trials are in complete remission. In only 4 years, partnering with our amazing Team Becca Supporters and Sponsors, we have raised over \$495,000 towards the groundbreaking immunotherapy research and clinical trials being performed at the Ben Towne Center, but we need to do more and with your help, we can!
