

Make your pet's wellbeing a priority. See your veterinarian regularly and follow these tips to keep your pet happy and healthy.

NUTRITION

Your veterinarian will give you a recommendation for a high quality and nutritious diet for your pet, and advise you on how much and how often to feed him or her. Diets may vary by species, breed and age.

IDENTIFICATION

Microchipping is a safe and permanent identification option to ensure your pet's return should he or she get lost. Ask us about the process and get your pet protected.

SAFETY

Always keep your dog on a leash in public, and your cat indoors to protect them from common hazards such as cars and other animals.

GROOMING

Frequent brushing keeps your pet's coat clean and reduces the occurrence of shedding, matting and hairballs. Depending on the breed, your pet may also need professional groomings.

DENTAL AND ORAL HEALTH

Brush your pet's teeth regularly and check with your veterinarian about professional cleanings as well as dental treats and products available to help prevent bad breath, gingivitis, periodontitis and underlying disease. Although your pet's teeth may look healthy, significant disease could be hidden below the gum line.

EXERCISE

Be sure to spend at least 15 minutes a day playing with your cat to keep him or her active and at a healthy weight. All dogs need routine exercise to stay fit, but the requirements vary by breed and age. Ask us what's best for your dog.

Doggy daycares and boarding facilities are other ways to help to burn off some energy and socialize your pets.

TRAINING

Enroll your dog in training classes to improve his or her behavior with pets and people.

Cats need minimal training. Be sure to provide them with a litter box beginning at four weeks of age.

ENVIRONMENTAL ENRICHMENT

Entertain your pet's natural instincts by using toys that encourage them to jump and run. Cats especially need to fulfill their instinct to hunt – provide interactive toys that mimic prey like a laser pointer or feathers on a wand. You can also hide treats in your pet's toys or around the house to decrease boredom while you're away.

BE YOUR PET'S GUARDIAN ANGEL

Call us if your pet experiences vomiting, diarrhea, poor appetite, lethargy, trouble breathing, excessive drinking or urinating, wheezing or coughing, pale gums, discharge from nose, swollen eye or discharge, limping, and/or difficulty passing urine or stool as these may be signs of illness.
