Value Chains we specialize in

ORGANIC SOYBEAN SOURCING

We source from small holder farmers and buying agents in Togo, West Africa. We procure grains from both upcountry warehouse locations in North Togo and from it's Port city of Lome.

ORGANIC SOYBEAN CULTIVATION

We are working with more than 1500 farmers over 2000 ha in South West Nigeria and select markets in North West Nigeria. Registered Anchors in the central Govt administered ABP Program.

NON-GM SESAME SEED SOURCING

We trade in two grades of Sesame - Prima Grade which is dehulled with 99.98 purity and Natural Sortex with impurity not exceeding 0.1%.

NON-GM DRIED GINGER

We source dried ginger from North Central and North West Nigeria. The country happens to be one of the worlds largest exporters for this commodity but the potential to originate efficiently is immense.
