

THE RIGHT PLACE- IN THE RIGHT PLACE

WELCOME TO THE FIRST NEWSLETTER FROM THE RIGHTPLACE!

The Right Place was born from a desire to combine 1:1 tutoring with well being- children learning **in** the right place with an experienced and passionate practitioner, guiding their mind and body **to** the right place to fully explore their potential. So often all that is stopping children learn is their mindset- my aim is to help them believe that anything they set their mind to is possible.

As a teacher with over 20 years experience I have watched the pressures children face change immeasurably over the years. Social media, gaming, technology and constant 'connectedness' all bring with them advantages in this modern new world we find ourselves in, however they all bring their challenges too, making it difficult at times for children to just 'be'. This combined with the challenge of the last year means that there has never been a better time to really focus on helping our children and young people get to The Right Place.

And now I am so excited to reveal that The Right Place has its own home! From the middle of June I will be moving from my kitchen table to a space within the St James Business Centre, Linwood. This is the perfect location for your children to come and learn and grow while you shop, grab a coffee or a bite to eat. Over the next few weeks timetables will become available for 1:1 tutoring, group tutoring, book clubs, coaching, yoga/relaxation sessions and Youth Mindfulness. Check out the website for what each of these services could bring to your child. Please drop me a note today to register interest in any of the services listed- timetables and slots will be released soon, but these won't stay available for long!

All bookings begin with a free 1:1 meeting with you as the parent or carer to fully discuss and explore your needs, before a free 1:1 with your child to get to know them and start building a relationship to help enable the change they need to happen.

This new home will truly enable The Right Place to become a well being hub which can support and nurture children and young people to learn and grow- this space can also be made available to any practitioner out there who might benefit from using this space to provide their own well being services- please get in touch today to discuss how we could work together to make The Right Place a very special place to be.
