

Approved Paint and Stain Colors

The original approved community colors, which are required to be used on all exterior surfaces (except your front door) are Behr brand, and are available at Home Depot. The color mixes are below.

You are NOT required to purchase Behr products nor to shop at Home Depot for your paint. You are however required to COLOR MATCH the approved colors. The Board has color swatches for you, free of charge, which match the approved exterior colors.

To get a color swatch, please come to a Board meeting, or contact our property manager. Contact information for the property manager, and information on Board meetings can be found on our Association website: <https://chateauinthepines.com/>

NOTE: The Board has removed the requirement for an approved front door color (the exterior semi-gloss off-white paint color); you are free to paint your front door any color you wish.
