Sola Wood Florals

Keep a piece of your day forever with florals made with sola wood flowers (yes, WOOD flowers!)

Sola wood flowers are handmade with very thin wood that is allergy free and eco-friendly!

Every order is 100% customizable, as every flower type is available year round and exact custom colour matching is available. Ask us about our custom painting designs... the pride flag, succulents, blood splatter, etc!

There are 6 collections to choose from OR you can design your own! In either case, you will receive photo updates for approval!

No preservation is required to keep your florals forever. Unlike fresh flowers, sola wood does not need preserving! Adding this into consideration, sola wood flowers are more affordable than fresh!

Check out our website to view the available collections, or submit your inspiration photos to us for a custom quote !
