COMMUNICATION

I have a list of customers / potential customers and regularly keep in touch with them and let them know what we are doing so that they don't forget about us!				I want to keep in contact with people that I meet and make sure that they are aware of what we are doing, but I don't know how to do so.
I make time to have a list of relevant topics to write about and create blogs that are SEO optimised and can be shared in the public domain on a regular basis.				I know that blogs are a great way for people to find me and my business, but I'm not sure what to write and don't have the time to write anything once I decide on a topic!
I network regularly and have built relationships that have added true value to my business.				I know that networking is a great way to build my business but I'm just not comfortable in that environment and really don't want to do this as part of my business.
I know what I do well and I have a suite of marketing materials to show the features and benefits of what I do that can be shared with potential customers.				I am passionate about the service / products that my business offer but I'm not sure how to package them to show to potential customers.
I am confident and comfortable using multimedia technology to support the operation and growth of my business.				I know that using video on social media, webinars in my marketing and presentations when pitching are effective, but I don't have the skills or the time to create these.

If you find yourself with more ticks on the right than the left, then we can help you.
