

Cobb Scientific continues the mission of Science Lab Heroes and has expanded to include children as young as three. We no longer solely use space as the back drop, instead we incorporate everyday science in our shows.

Each show is 30 minutes to an hour in length and is interactive with audience participation! Our shows for younger children include many experiments that can be done at home. For middle school shows we include controlled explosions and a few experiences that can be done at home. We are here to make scientific experiences that will be remembered for a lifetime!

## ENGAGING

Let us provide an engaging scientific experience that not only entertains but also teaches. We can help you with your next:

- Birthday Party
- Block Party
- Corporate Event
- Classroom Takeover
- Library Event
- School Assembly
- Retreat
- Science Fair
- Science Night
- Summer Camp

3309 South Michigan Street  
South Bend, IN 46614

## COBB SCIENTIFIC

Cobb Scientific provides a variety of scientific experiences. From science themed birthday parties to school assemblies, Cobb Scientific can provide the right scientific experience for you or your organization.

# QUALITY SCIENTIFIC EXPERIENCES

*We provide scientific experiences for all ages!*

Cobb Scientific was unofficially founded in the summer of 2011 as Science Lab Heroes. We received a grant from NASA and the National Space Grant Foundation. With the grant money we developed an interactive science show that was geared towards exposing middle school students to STEM concepts related to space and space exploration. We were able to take the show on the road free of charge and visit a total of 11 schools throughout Illinois and Indiana.

We are able to provide a variety of science shows and in class experiences to pre-k through adult. Want a science themed birthday party? We can do that too! We provide science for all. The following is a sample list of the scientific experiences we offer. Please visit our website at [www.cobbscientific.com](http://www.cobbscientific.com) for a full price list. These prices include all the material needed for one show or experience. Additional shows on the same day are \$100 each. We can do up to three shows a day.

**AIR:** \$200.00

Take a dive in surface tension, convection currents, air condensing, air pressure and a few other scientific concepts as you take this scientific experience. A lucky volunteer will ride on a leaf blower powered hovercraft. This experience will yield ideas you can take home and try for yourself.

*Learn about cloud formation with a cloud in a bottle!*

*Experience first hand how Bernoulli's principle makes toilet paper fly.*

**BOOM!:** \$300.00

Be ready to participate in this nonstop display of boom! Learn the science behind combustion and gas expansion. None of these experience can not be tried at home.

*Explore the concept of surface area.*

*Become a film canister rocket scientist*

**SCIENCE HEROES:** \$300.00

Science Heroes gives you a general survey of what Cobb Scientific has for the younger crowd. Ride on a hovercraft, hold a bubble in your hands, make clouds with water and liquid nitrogen, shatter rubber like glass and see much more!

*What is adhesion and cohesion?*

*What happens to a lightbulb filament that isn't surrounded by glass?*
