ガロニマルの処刑人

Scharfrichter

"Scharfrichters" specialize in the extermination and disposal of vampires, lycanthropes, and other supernatural creatures. Hunters and beast hunters fall into the same category. They protect humans from these creatures and work clandestinely to ensure that their existence does not become known to the world, thus maintaining human order. However, recently, these creatures have grown increasingly powerful, and the executioners are no longer able to keep them under control.

鴉鬼助
