# Problem

Online portfolio and asset management platforms have seen immense increases in quality, quantity, and adoption in recent years. The rapid development of financial technology (FinTech) applications has fuelled a transition to the web- and mobile-based platforms that can improve the accessibility and delivery of financial services.

However, many of these solutions lack digital asset integrations. Acknowledging this gap in the market, we have planned to develop a platform that caters to cryptocurrency investors.

This platform will be an all-encompassing app that will include the features of

- Simple crypto portfolio trackers that aggregate data
- Automated and copy-trading platforms that help investors manage risk
- App-based solutions facilitate mobile oversight for on-the-go access
- In-app access to cryptocurrency consultants

## Solution

Infodriver Quantum app will allow its user to track and/or control local or global flows of cryptocurrency funds, exchange tokens for fiat funds, and vice versa. They will also be able to stay up to date with the relevant information regarding the cryptocurrencies in the market (prices, market capitalization, trading volumes, trading pairs, available markets, and exchanges ranking). The Unique Selling Point of our application is that it will allow investors to connect with experienced Cryptocurrency consultants Online or get an instant information via AI. Also application includes non-custodial wallet, lending marketplace and direct connection with top Web3 startups to review and invest in.

# Robo-advisory market:

\*[Statista](#) US\$88.31 bn in 2022 with a projection to reach US\$127.60bn in 2023. UK US\$79.04 bn in 2017 with a projection to reach US\$229.90 bn in 2027. USA US\$873.10 bn in 2022 with a projection to reach US\$1,172.00 bn in 2023.

# Financial Robo-advisory

Fintech analytics powered by AI (legal, regulations, invest marks).

Marketplace with a Steady cash flow income strategies

Bridge between startups and VCPE investors. Project generator on AI

Loyalty Program with a reward loyalty points IDR and reward points IDC
