Notes:

- 1. For qpl D38999 connectors is marked with the generic military p/n: D38999/2XXXXXA/BX According to MIL-DTL-38999 when non-standard contacts are installed in a connector instead of the standard contacts -code A (for special male pins) and code B (for special socket contacts) should be marked on the connectors.
- 2. For Bronze connectors (class BZ) is marked with the generic p/n of the specific manufacturer . RB for Amphenol / BZ for Aero Electric / B for Deutsch (TE)
- 3. Other tail dimensions and shell configurations are available on request.
