Edition # 12 - September and October - 2022

Creating Community

Dear IBRTers,

This last month has been a busy one for IBRT. We have actively been creating short videos and organizing and launching our new social media posts. We are creating new outreach in support of generating more clients, and more affiliate and Board Certified members.

Have you seen any of the posts we sent out through Facebook and LinkedIn? We are starting to get interest from new folks through our outreach.

Devra Jacobs, our media consultant, is giving our web site a facelift and she is actively sending out new posts weekly. We have contracted with Devra on a trial basis for three months and we will evaluate our tangible results to determine if it is cost-effective and wise to continue with her support. Please help us by getting your colleagues to look for us on Facebook and to friend IBRT to see our posts.

And remember that if you attend our monthly Gatherings you may bring a new guest each time to experience our community and the wisdom and inspiration of our members.

Our group synergy continues to build in support of the work of Past Life Therapy, our practices, our teaching, and our contributions to the healing of humanity and our planetary condition. THANK YOU for being a part of it all.

Many Blessings,
Holly

Articles

Am I A Hypnotherapist, or Not?

By Virginia Waldron, CH, CI

Brief summary - it is wise for everyone who practices hypnosis to investigate what their local government requires in order to have a professional practice, safely under the eye of the law. This is also important for instructors to explain to their students that they should go to the appropriate government websites, not only where they are located but also if they are working remotely with clients outside of their state/country, to and explore all the legal licensing, rules and requirements for their new career in hypnosis.

Gatherings

We had a lovely summer social gathering in July, on Zoom, where we visited and talked about our experiences with past life regression, and energy work. It was so nice to get to know one another so much better. Our next Gathering will be in September, with Greg McHugh as our featured speaker.

Spirit Releasement Practices Part II Gathering with Greg Mc Hugh

Saturday September 10, 2022 - 9 am Pacific Coast Time, 10 am Mountain Time, 11am, Central Time, noon East Coast Time.

Please Note: This Gathering was scheduled accommodate the time zones of our global community of members. So, London would be 5 hours later and Paris is 6 hours later. 3P

In this Part II of Spirit Releasement Practices we will have look at:

- How the presence of deceased humans and attached dark beings mislead therapists in traditional talk therapy.
- How demons drive client behavior to violence.
- The relationship between extreme trauma and the presence of dark beings.
- New protocols for identification of attached entities.
- Protocols integrating spirit releasement and regression therapy.
- Invoking Divine Presence into the Samskara.

We will have fun discovering significant understandings of how the presence of deceased humans and attached dark beings misleads therapists in traditional talk therapy. How

demons drive client behavior to violence. The relationship between extreme trauma and the presence of dark beings. New protocols for identification of attached entities. Protocols integrating spirit releasement and regression therapy. Invoking Divine Presence into the Samskara.

IBRT Book Club

Our next IBRT Book Club meeting will be in September. The book we will be discussing is *The ETs Speak: Who We Are & Why We're Here* (December 2016) by IBRT member Howard Batie, available through Amazon, paperback and Kindle format.

Free Event - Wednesday, September 21 - 4 PM West Coast, 5 PM Mountain, 6 PM Central, and 7 PM on the East Coast. Online, via Zoom.

This ground-breaking book takes the UFO Phenomena to the next level – it is time to communicate directly with the beings behind the mysterious craft in our skies that have been

observing us for so long. Howard Batie, an internationally-published award-winning author and Certified Hypnotherapist, has made the breakthrough by “*interviewing*” and recording extensive conversations with our extraterrestrial visitors.

The word-for-word transcripts of these interviews give us a never-seen-before understanding of the objectives and goals of “The Grays,” who have been orchestrating the abduction of many people throughout our world, as well as the benevolent intentions of many other Galactic races who have been patiently observing Humanity as we continue to evolve. We are not alone, and this book clearly describes the vision that our Visitors want to share with us.

If you want to listen to a short interview with Howard about his book, please click on this link (you can also listen to our first IBRT Book Club presenter, author Peter Smith):
