

	<p><i>Policy for Monitoring the Temperature of Ovens</i></p>	<p>Policy 009</p>
<p>Written by: Chris Robinson</p>	<p>Date: December 31, 2025</p>	<p>Page 1 of 1</p>

Policy

1. CMEC requires each laboratory to monitor the temperature of all testing ovens within the laboratory. The temperature of the ovens shall be monitored continuously.
2. The temperature of the ovens shall be monitored by one of the following methods:
 - a. Laboratory ovens that have digital readouts are acceptable.
 - b. Laboratory ovens without digital readouts shall be equipped with a thermometric device for monitoring the temperature of the oven.
3. The digital readouts and the temperature monitoring devices shall be standardized according the requirements specified in AASHTO R18.
