OUR CLAUSTRO DE MAESTROS

Since 2017, our Claustro de Maestros (Teachers Faculty) is a fundamental part of DOMO's vision. With great sensitivity and artistry, our well renowned teachers guide the Professional Classes, Creative Labs and the entire experience in the festival. 2024's Claustro de Maestros will be confirmed soon.

Most of the Festival's activities may be held in Spanish, but we believe communicating through another language and through movement itself will be part of an amazing cultural experience.
