

A **contraindication** is when the procedure should **NOT** be administered, or should be used with **Caution**, and or only with a Doctor's Release/Prescription to protect the user.

These are the contraindications for administering the procedure of the Ion-Cleanse Foot Detox.

- **During pregnancy (or suspected pregnancy)**
- **People with a pacemaker**
- **People with implanted organs, steel plates or joints**
- **People with epilepsy**
- **People undergoing any form of radiotherapy or chemotherapy**
- **People with type 1 Diabetes**
- **People with open wounds on their feet**
- **If you are unsure, please check with your Physician**

**IF THERE IS ANY DOUBT WHETHER A PERSON SHOULD RECEIVE AN ION-CLEANSE FOOT DETOX, THE PERSON SHOULD CONSULT THEIR PRIMARY HEALTH CARE PROFESSIONAL OR PHYSICIAN.**

I have read and understand the above contraindications for the foot detox and attest that I do not have or have not had any of the above mentioned.
