VENDOR PARTNER INFORMATION

Grow your business with qualified local opportunities.

One Point Site Services is a Savannah-area home-services concierge. We connect customers with vetted local providers who are ready to do excellent work.

No upfront cost. No monthly fee.

You pay only when a referred job is completed and the customer has paid you.

12%
REFERRAL FEE

How it works

1. We match a customer request to your trade and service area.
2. You decide whether to accept the opportunity.
3. You quote the work, schedule directly with the customer, and complete the job.
4. The customer pays you directly. You remit 12% of the amount collected to OPSS within 15 days.

What OPSS provides

- Local marketing and customer intake
- Opportunities matched to your trade and coverage area
- One clear referral source instead of a public bidding marketplace
- A non-exclusive relationship: you keep running your business and may accept work from other sources
- No guarantee of lead volume, and no charge for opportunities that do not become paid jobs

What we require

- Active state or local license where your trade requires one
- General liability insurance of at least $1 million per occurrence
- Workers' compensation coverage where required
- A successful small, paid trial job before joining the regular rotation
- Prompt communication, reliable arrival updates, honest quotes, and before-and-after photos

Your role on every job

You contract directly with the customer and remain responsible for your quote, schedule, workmanship, safety, permits, warranty obligations, and payment collection. OPSS is the marketing and referral connection; it does not perform or supervise your trade work.

Good to know: Referred opportunities are exclusive to the selected provider for 24 hours. Acknowledgment is expected within four business hours, or the opportunity may be reassigned. If an OPSS-referred customer hires you for additional work within 12 months of the original referral, that work remains an OPSS referral and the same 12% fee applies to amounts collected. Full operating terms are provided in the Service Provider Network Agreement.

Interested? Start here.

Call or text Cat to discuss your trade, service area, and availability. Please have your business details, license information (if applicable), certificate of insurance, and signed W-9 ready for onboarding.
