

NJ | Mobile HealthCare (NJMHC) is a dedicated, compliance-focused, state-of-the-art emergency medical transportation provider that delivers the highest levels of pre-hospital care to our patients. NJMHC is an affiliate of the Center For Community Based EMS (CCBEMS), a nonprofit organization that provides operations and training support to emergency medical service (EMS) agencies. As a public benefit corporation devoted to the public good and Next Generation EMS, NJMHC is an innovative leader in the field of emergency medicine.

Our Mission

NJ | Mobile HealthCare's mission is patient focused, customer centered, and inspired by service.

Our Vision

The vision of NJ | Mobile HealthCare is to be the exceptional, patient-focused Next Generation EMS leader in the State of New Jersey.

THE NJMHC DIFFERENCE

- **Patient & Customer Service:** NJMHC provides high-level clinical patient services and outstanding customer service. NJMHC medical treatment protocols exceed regulations, and our customer service is the industry's best.
- **Professional Team:** NJMHC is staffed by professional, qualified, and certified emergency medical technicians (EMTs).
- **Modern Ambulance Fleet:** NJMHC ambulances are equipped with advanced emergency medical supplies and cutting-edge equipment.
- **Education & Training:** NJMHC's Strategic Health Initiatives Education & Learning Division (S.H.I.E.L.D.) addresses public health issues and health initiatives through training and education.
- **Compliance Focused:** NJMHC's clinical coordinators, compliance officers, and administrative staff work together to ensure that all our operations, practices, equipment, and policies meet and exceed current state and federal regulations.
- **State-of-the-Art Medical Communications Center:** NJMHC's MedLink EMS Communications Center technology is sophisticated enough to handle the most demanding emergency call volume in the country.

EMERGENCY MEDICAL SERVICES

At NJ | Mobile HealthCare (NJMHC), our paramount priority is our patients. The NJMHC foundation is based on patient service and safety. By establishing connections with the communities in which we serve, NJMHC builds trust, accountability,

At NJMHC, pre-hospital emergency clinical care is an exceptionally important component of our patient service. NJMHC ambulances are staffed by professional, qualified, and trained certified emergency medical technicians (EMTs). NJMHC ambulance units are resourced by EMTs who are trained to quickly assess patients' needs as well as help stabilize patients in emergency situations. Our ambulance fleet is equipped with advanced emergency medical supplies and equipment, and our EMTs and organization as a whole operate under the direction of a board-certified emergency physician.

NON-EMERGENCY AMBULANCE SERVICES

NJ | Mobile HealthCare (NJMHC) offers the very best service in non-emergency medical transportation. NJMHC provides medical transportation services for patients to healthcare facilities, hospitals, and nursing homes. We work with healthcare facilities to coordinate non-emergency medical transportation by ambulance on a recurring or one-time basis. NJMHC has an excellent team of EMTs, providing the best, yet cost-effective bedside-to-bedside service available.

MEDICAL & EDUCATION SAFETY SERVICES

At NJ | Mobile HealthCare (NJMHC), we understand that patient healthcare begins with education and prevention. The NJMHC Strategic Health Initiatives Education & Learning Division (S.H.I.E.L.D.) addresses public health issues and health initiatives through training and education, allied health agencies, and community partners.

NJMHC courses are structured for onsite and offsite instruction, enabling NJMHC to travel to an agency or institution and conduct training and class sessions. NJMHC is an American Safety & Health Institute (ASHI) Training Center and American Heart Association (AHA) training provider. NJMHC offers National Association of Emergency Medical Technicians (NAEMT) and National Emergency Communications Institute (NECI) courses.

SPECIAL EVENTS & MEDICAL STANDBY SERVICES

At NJ | Mobile HealthCare (NJMHC), we understand that event safety is critical. NJMHC is your strategic partner in helping your event's success and providing onsite care for patients. Regardless of the size or scope of your event, NJMHC provides onsite standby ambulance crews, EMS bike teams, mobile units, field treatment units, and many turnkey medical support solutions that are affordable and tailored to meet an organization's event budget.
