### FEATURED PRESENTATION – MAY

**Title: Moving from Intent to Impact: Strategies for Addressing Health Inequity**

#### Session Summary

Reporting of disparate rates in health among marginalized communities have become normalized and accusatory due to an emphasis on the “risky behaviors” of a population, versus the development of strategies to address the structural and social determinants that contribute to poor health outcomes. This presentation discusses the root causes of health inequities and its impact on health outcomes and provides a framework for addressing health inequities head on.

#### Learning Objectives

1. Upon completion, each participant will be able to discuss and identify the root causes of health inequities.
2. Upon completion, each participant will be able to apply strategies for addressing health inequities at the individual and organizational level.

#### About the Presenter - Deidre McDaniel, MSW, LCSW

Deidre McDaniel, MSW, LCSW is the President and Founder of Health Equity Resources and Strategies, LLC (H.E.R.S.) with over 20 years of experience in maternal & child health. Ms. McDaniel provides guidance to healthcare systems and public/private organizations on how to successfully implement and sustain equitable systems of service delivery to address health disparities. Ms. McDaniel is also a Doctoral Fellow at Morgan State University, and an AIM Clinical-Community Bundle Integration Specialist with the National Healthy Start Association. Ms. McDaniel’s current research interests are in anti-racist healthcare practices and eliminating disparities in birth outcomes for African American women. Ms. McDaniel employs a critical equity framework through which to understand all healthcare systems, policies, and practices. As a licensed certified social worker, she has dedicated her career to improving health outcomes for women and children; and as a leader in the field, she demonstrates cultural humility, effective communication, and sound content expertise.
