Attention: Board of Directors, Baxter Creek Watershed Alliance

I am writing on behalf of PHorests 4 R PHuture Community Association Inc. to lend our support for the Kawartha Land Trust (KLT) and the Baxter Creek Watershed Alliance's far-sighted vision to protect and preserve the ecological heritage of the Old Millbrook Jail lands.

PHorests 4 R PHuture (known more widely as Save Our Trees) is a dynamic organization actively partnered with likeminded community stakeholders, advocating on behalf of the residents of Port Hope and area for an environmentally sustainable future that protects and preserves our trees and eco-system. Together we are working towards a more sustainable and livable community.

The proposed joint project between the Kawartha Land Trust and the Baxter Creek Watershed Alliance is an exceptional example of volunteer groups truly making a difference on behalf of those seeking recreational opportunities and a deeper understanding of the value of nature in our lives.

Our organization encourages the Township of Cavan Monaghan to endorse this amazing project for the future generations in your community.
