

# May BOM

## Rotating Diamonds

You will need:

- 8--3 7/8" squares of background
- 4--3 7/8" squares of color/print fabric A
- 4--3 7/8" squares of color/print fabric B

Cut all squares in half across the diagonal. This will leave you with 16 triangles of background fabric, and 8 triangles of each, color A & B.

Sew one background fabric triangle to one of color A until all of color A are used. Repeat for color B.
