

## Mid-Missouri Highsteppers Program

The Highsteppers are a contemporary performing precision dance/drill troupe. They perform dance steps, military drill maneuvers, marching steps and carefully choreographed street dance. They perform solely to percussion instruments, which accompany and set the pace for each exciting performance.

Each drill is paced and called by a drill instructor, but drill routines are generally choreographed by Gold Level members or their instructors.

The Highsteppers perform regularly during half-time shows, important school assemblies, parades and other special events. They have performed in inaugurations both in Washington DC and Jefferson City, MO. They also have performed in Chicago as well as many other important cities. The Highsteppers generally practice two times per week. Each practice lasts

approximately 2 1/2 hours.

Each member is expected to attend each practice, and to memorize and follow the creed and tenets set forth by the Mid Missouri Highsteppers organization.
