ATOM-ID

SECURE ENCRYPTED GEN2 UHF RFID TAGS

ATOM-ID GEN2 UHF RFID Tags provide reliable access control for your community's gated entry. Designed to adhere securely to vehicle headlights. Encoded with Atomic RFID's Military Grade Encryption, Wiegand 26, or custom encoding tailored to your needs. They prevent unauthorized use by blocking tampered or copied data for top-tier security. Paired with an ATOM20 Reader, they offer exceptional range—durable, user-friendly tags designed for any property seeking efficient, dependable protection.
