

Addenda # 89 – August 2025, Update February 2026
Re: Ch. 17, S.D.G. Enforcement by Global Organizations
SDG 10.7 – U.N. Migration Policies

In Addenda #89, I relayed the story about Harjinder Singh, who entered the U.S. illegally in 2018 and obtained a Commercial Driver's License (CDL) in California in 2024, even though he barely spoke English and couldn't identify a majority of highway traffic signs. On August 12, 2025, a minivan carrying five South Florida residents hit the tractor trailer Singh was driving as he attempted to make an illegal U-turn on a Florida turnpike, killing three occupants of the van.

Two months later, a semi-trailer driven by Borko Stankovic, a 41-year old Serbian national who had been in the U.S. illegally since 2011, drove his semi-truck into oncoming traffic on an Indiana highway, striking two vehicles. Stankovic, driving without a valid CDL, killed one motorist and injured two others.

One week later, a semi-trailer driven by Jashanpreet Singh, a 21-year old Indian national who entered the U.S. illegally in 2022, rammed into several vehicles, causing an eight-vehicle crash that left three dead and four others hospitalized in various conditions.

Pro-immigration activists like to parrot statistic's about the low crime rates of illegal immigrants verses U.S. citizens, but they never are on the receiving end when illegals commit crimes. They don't care about the costs of illegal immigration, they only care about bringing more illegals into the country and keeping them here. Well, it just happened again...

ICE takes semi driver into custody after Indiana crash killed 4
News Nation, February 6, 2026

The semi driver accused of causing a crash that killed four people was handed over Thursday to U.S. Immigration and Customs Enforcement.

According to a press release from Indiana State Police, troopers were called to State Road 67 and County Road 550 E on Tuesday around 4 p.m. to assist the Jay County Sheriff's Department with a crash.

Following an initial investigation, police determined that the driver of a semi, 30-year-old Bekzhan Beishekeev, was traveling east on SR 67 near CR 550 E when he did not stop for another slowed semi tractor. The eastbound semi then swerved into the westbound lane and crashed head-on into a van.

Bekzhan Beishekeev, a Kyrgyzstan national who entered the U.S. legally through the Biden administrations CBP One App in 2023, was issued a CDL by the Pennsylvania Department of Transportation. Beishekeev, who failed to slow down or stop for another slowed semi-trailer in his lane, swerved into the oncoming traffic lane and collided head-on with the van.

Four of the six people in the van were killed; all members of the local Amish community and the driver was seriously injured. The immigration status of Beishekeev, who was charged with four counts of felony reckless homicide and felony criminal recklessness, was defended by Pennsylvania Governor Josh Shapiro. “The individual in question had legal status [in Kristi Noem’s database] when the license was issued in July 2025 and still shows as eligible to receive a license as of today.” Shapiro commented on Noem’s incompetence and “moral failures as the Secretary of Homeland Security,” but didn’t say a word about the incompetence and moral failures of the Pennsylvania Department of Transportation that issued Beishekeev a CDL just six months before he recklessly killed four U.S. citizens or show sympathy for the victims.

Incidents involving immigrant drivers have led to stricter scrutiny of language and reading ability when issuing Commercial Drivers Licenses more recently. The federal Department of Transportation is demanding that states, which issue the licenses, comply with federal regulations that only legally residing individuals can operate commercial vehicles, and that guidelines for literacy in testing are followed. In October 2025, DHS Secretary Kristi Noem reported that more than 140 truck drivers were arrested during Operation Midway Blitz in Indiana, including a criminal illegal alien from Uzbekistan wanted in his origin country for belonging to a terrorist organization, and an illegal alien from India who was issued a Limited-Term CDL by the State of New York under the name “Anmol, No Name Given.” Note: Akhror Bozorov, the Uzbek national wanted on terrorism charges in his home country, was also issued a CDL from the state of Pennsylvania in 2025, one year after illegally entering the U.S.

Does anyone else see a pattern here? The purpose of U.N. Sustainable Development Goals 10 and 10.7, is “reducing inequalities within and among countries... through the implementation of planned and well-managed migration policies.” The cost of reducing inequalities for the countries of India, Uzbekistan and Serbia has led to the deaths of eleven legal U.S. citizens/residents. But they’re not the only victims of crimes committed by illegal immigrants. The Remembrance Project compiles a list of American citizens killed by illegal immigrants. While some estimates put the numbers in the thousands per year, the Southern Poverty Law Center has labeled The Remembrance Project as a designated “Hate Group” and claims the organization “grossly misrepresents the level of crime committed by immigrants, routinely demonizes immigrants as “invaders” and has a record of working with white nationalists.”

The Department of Homeland Security has been arresting illegal immigrants in Minneapolis since December 2025. DHS Secretary Kristi Noem released a statement on January 19 about operation Metro Surge saying, *“In the last 6 weeks, our brave DHS law enforcement have arrested 3,000 criminal illegal aliens including vicious murderers, rapists, child pedophiles, and incredibly dangerous individuals. A huge victory for public safety.”*

On Wednesday February 12, ICE agents were trying to arrest an illegal alien accused of raping a child and murder. Olivia Jensen, a Minnesota woman who spent her time stalking ICE agents and interfering in their attempts to arrest such criminal illegal immigrants, got

into a verbal confrontation with the agents later that morning, with Jensen calling the agent a “race traitor” after he explained to her who they were trying to apprehend. Jensen replied, “You just tried to detain legal immigrants... If you were to get illegal, violent immigrants off the streets, that would be fine.” Another agent listening to the conversation responded, “If you actually cared, you probably would care about the child who got raped and the person who got murdered by the person we're looking for, but you see, you don't care.” Jensen replied, “No, I don't care.”

That, is the attitude of the progressive Democrat today. They *don't care* that an ICE agent was arresting a criminal illegal immigrant. They *don't care* about the children raped by illegal immigrants. They *don't care* about the people who get assaulted, beaten or murdered by illegal immigrants. They *don't care* about the victims. They *don't even care* about the illegal immigrants who cross our borders, in an attempt to find a better life than what they had in the countries they migrated from.

They only care about resisting attempts by Conservative Republicans who want to push back against Diversity, Equity and Inclusion, push back against gender ideology, push back against climate policies, and push back against unrestricted illegal immigration. They are nothing more than ‘useful idiots’ who have been brainwashed into caring more about an “agenda” created by global Elites, an agenda that *only* benefits global Elites. They *don't care* about those people whose lives are adversely affected by it. They've given total control of themselves to the global Elites behind the agenda.

I've said this before and I'll continue saying it...

- Agenda 2030 was never about “saving the planet.”
- It was never about “public health or safety.”
- It was never about “climate justice” or “climate equity.”
- It was always about CONTROL!

George Orwell, 1984

“Now I will tell you the answer to my question. It is this. The Party seeks power entirely for its own sake. We are not interested in the good of others; we are interested solely in power, pure power.”
