GMEN Continues Coastal Georgia Expansion with Business and Community Tour of Sapelo Island

Brunswick, GA – July 7, 2026 — The Georgia Micro Enterprise Network (GMEN) will continue its Coastal Georgia expansion with a business and community tour of Sapelo Island on **Friday, July 17, 2026**.

The visit is part of GMEN's commitment to expanding entrepreneurship resources across Georgia. It also builds on the recent launch of the organization's Brunswick office.

GMEN Chief Executive Officer **Elizabeth Wilson** will lead the tour. During the visit, she will meet with community members, entrepreneurs, and local leaders. The goal is to learn more about the island's business environment and explore future opportunities for partnership.

"We believe every entrepreneur deserves access to quality business resources," said Elizabeth Wilson, CEO of GMEN. "The best way to serve a community is to first listen. We look forward to learning from the people of Sapelo Island and building lasting relationships."

The tour is a community listening initiative. GMEN will gather insights about local businesses, economic opportunities, and the resources entrepreneurs need to grow and succeed.

For nearly 30 years, GMEN has helped entrepreneurs across Georgia start, grow, and strengthen their businesses. The organization provides business training, technical assistance, resource connections, and access to capital through a statewide network of partners.

As GMEN prepares to celebrate its 30th Anniversary, the organization remains focused on expanding access to entrepreneurship in communities across Georgia.
