

MasterTrac[®]
CUSTOM CLOSET SYSTEM

WOOD CLOSETS

SOLUTIONS FOR THE ENTIRE HOME

The **MasterTrac**[®] system is a built-in, custom storage solution that can be used anywhere in the home. Transform any closet into an organized, personalized, attractive space. Use it for walk-ins, reach-ins, pantries, linen closets, laundry, mudrooms, and more.

UNBEATABLE QUALITY

Sauder Closets combine its heritage of innovation with the strength of its state-of-the-art manufacturing operation in Archbold, Ohio. The **MasterTrac**[®] system is made to last – with the look and feel of fine furniture. Made from ¾" thick top-grade engineered wood, it's environment-friendly and affordable.

CUSTOM STORAGE

Sauder Closets feature hundreds of configurations to create truly custom organization. We offer the styles, colors, and upgrades to make the most of any space. **MasterTrac**[®] closets are wall or floor mounted pieces that fit any space.

MADE FOR EVERYONE

Top of the line, affordable closets should be available to everyone. The **MasterTrac**[®] system works for single-family homeowners who are building or upgrading their current closets. Or design affordable, beautiful, easy-to-install closets for multi-family buildings.

National association of realtors found that a master bedroom walk-in closet was the third most common feature on which buyers would spend more.

2013 PROFILE OF BUYERS' HOME FEATURE PREFERENCES

MasterTrac[®]

CONFIGURATION

ACCESSORIZE

Add shelves, rods, drawers, doors, baskets and more to customize the function of each cabinet.

FLOOR MOUNTED

Use floor mounted panels for the ultimate built-in look. Available in 87" or 96" H with optional toe kicks to give closets a high-end feel with maximum functionality. Design fully enclosed storage with optional 24" deep uprights, perfect for in-room storage.

WALL MOUNTED

Keep floors clear and get the best value while not losing storage space with wall-mounted panels. Add functionality with shelves, doors and drawers.

SHELF & ROD CLOSET SYSTEM

Efficient by Design. Flexible in the Field. Built for Multi-family.

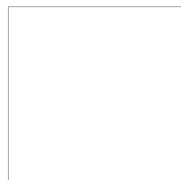

The MasterTrac® Shelf & Rod Closet System delivers a clean, durable, and cost-effective storage solution engineered for the demands of multi-family projects. Designed with both performance and aesthetics in mind, MasterTrac® installs efficiently, scales easily, and elevates everyday living spaces.

Product Features

- **Quick, efficient installation** for tight construction schedules
- **Grooved cleat system** helps hide uneven drywall
- **Cut-to-size flexibility** for consistent results across unit types
- **Hanging design** installs before or after flooring
- **Multiple depth options** to maximize usable space
- **Available in three designer finishes** to coordinate seamlessly with a wide range of interiors
