It is important that you discuss plan options with a Licensed Medicare Specialist, such as myself, to be sure you are choosing the correct plan for YOU.

There are many paths you can take while navigating the enrollment process. Depending on your unique situation, you could end up at a different ending point than your neighbor.

Medicare is not a "one size fits all" kind of deal.

Did you know there is a combination of 7 different ways to take your Medicare benefits? Every person is different, and each has different needs and circumstances. It is my job to reveal those needs and provide you with your unique strategy plan.

My promise as a Licensed Medicare Specialist is to take the time to educate you first and, most importantly, understand what your needs are as an individual or family.
