  - **Co-Administrator of \$4.2M Department of Energy Obama ARRA Stimulus Fund grant for the Connecticut Neighbor to Neighbor Energy Challenge (14 towns from 2008 to 2013)**
  - **Senior Planner at San Diego Association of Governments (1999 to 2005)**

**Completed Consultation Process:** This document serves as the review packet to validate the completed consultation process and the immediate distribution of funds to implement approved strategic economic development plans to address Tribal Nations States of Emergencies, now further exacerbated by the coronavirus and the pandemic.

The Shovel Ready Implementation Plan Executive Summary. Attachment to **September 30, 2021** letter to the Honorable Secretary Haaland and the Honorable President Biden from Head Chief Geronimo Thomas Langenderfer and Dr. Kat A. Donnelly. For more information, contact: [Chief@altearth.org](mailto:Chief@altearth.org) / [Geronimo@MendoTribe.org](mailto:Geronimo@MendoTribe.org) or [KDonnelly@AZENTIVE.com](mailto:KDonnelly@AZENTIVE.com).

## The Shovel-Ready Implementation Plan

Implementation is needed NOW to bring the highest impact possible during this unprecedented “inflection point in history”<sup>1</sup>! The Emergency funds to address the Tribal States of Emergency have been allocated and issued through several Federal programs, three of which are delineated in the letter to the Honorable Deb Haaland and the Honorable President Biden. To address the Tribal States of Emergency, we are “devoting our resources to the challenges that hold the keys to our collective future”<sup>2</sup>:

showcase center houses the application of COVID-related technologies and the growing of a wide variety of healthy fruit and vegetable produce selections with continuous R&D on genetics, environments, and outcomes. The innovation hub supplies skilled jobs.

**\$ 1 Million**

### 2. Coronavirus Treatment Technologies:

Housed in the Innovation Hub are various technologies for large area disinfection, air treatment, and SARS-CoV-2 inactivation.

**\$ 1 Million**

### 3. Education & Training Center:

Educational coursework and training to train the Tribal Community and its trainers to quickly disseminate skills and knowledge in the local community.

**\$ 1 Million**

4. The Sun On-Demand™ Manufacturing (Assembly) Center: Profitable year-round assembly facility of The Sun On-Demand™ full electromagnetic indoor sunlight to bring skilled jobs, empowerment training, and purpose to local community members.

**\$ 1 Million**

5. Alightened (bulb) Manufacturing Center: Profitable year-round manufacturing facility of plasma light and other specialty bulbs to bring skilled jobs, empowerment training, and purpose to local community members.

**\$ 1 Million**

6. Food System: Completely organic crops in sunlight and living soil in both outdoor farming and indoor cultivation is in alignment with nature. It brings wellbeing to people. Small, community-managed indoor gardens and nurseries will also support outdoor farms.

**\$ 1 Million**

7. Soup to Nuts Kitchen and Community Center: This initiative provides meals, wellness education and modalities, support services to empower food insecure to begin on the path to food security and individual wellness.

**\$ 1 Million**

8. **Tribal Wellness Heart-Mind-Body-Spiritual Center:** Wellness support resources in the community that include a wide range of primary care and complementary care services that support the whole person: heart-mind-body-spirit-culture so that no child is left behind.

**\$ 1 Million**

9. **The Renewable Energy Centers:** Implementation via strategic alliances and joint ventures of off the grid power of water, wind, solar, and biofuel, water treatment, waste recycling, and other resources to establish sovereignty for needed infrastructure.

**\$ 1 Million**

Tribal Nations and the public have combined resources since the approval of the 2009 Economic Development Plan of Agency Tribal Nations (NASHA Strategic Plan with link above). The government has not acted, but the Native Americans and public Citizens have continued to take actions in support of progress on the already-approved review packet. This attachment to the letter that you see before you today is an interactive application between Native Americans and public citizens. This is the best economic, strategic, environmental, and a symbiotic plan to co-create with each Tribal Nation, leaving no one behind. It meets all of the interests of the Biden/Harris administration, as well as those of Secretary Haaland. The Federal government cannot ignore these solutions brought forth to address the issues of this unprecedented “inflection point in history”<sup>4</sup>.

<sup>4</sup> Ibid. The Shovel Ready Implementation Plan Executive Summary. Attachment to **September 30, 2021** letter to the Honorable Secretary Haaland and the Honorable President Biden from Head Chief Geronimo Thomas Langenderfer and Dr. Kat A. Donnelly. ***FLMMIRATN Mendocino Valley Council and Agency Tribal Nations respectfully requests immediate distribution of Economic Strategic Agriculture and Resources \$500M to Agency Tribal Nations, the allocated funds requisite to build a scalable and replicable approach to co-create implementation within any and all Tribes and outside of tribal lands to benefit across the USA. Agency Tribal Nations has the authority to receive the distribution and to manage quick implementation based on prepared strategic economic development and implementation plans including Emergency Operations Plan (EOP) and a completed Consultation process.***

As delineated in *Resolution A13180-CR-0001* (Tribal Nations Government Office of Federal Land Management of Mendocino Indian Reservation (Attached)), Agency Tribal Nations is authorized to receive Emergency funds to implement the approved 20-year strategic plan, - the 2009 Economic Development Plan of NASHA and Agency Tribal Nations (as approved through the process outlined in *Executive Order 13175*). In response to the current Tribal State of Emergency - including the urgent need to meet coronavirus response - we requested a Presidential Disaster Declaration to former President Trump on March 20, 2020 who approved it and sent us the EOP (Emergency Operations Plan), which was completed on **Date September 20, 2020**.

Since completing the Consultation and EOP processes, we have continued to update the

strategic plan, as well as to prepare and develop the implementation plans and shovel-ready projects without funding support. As the situation continued to worsen, on January 28, 2021 we again requested a Presidential Tribal State of Emergency to President Biden and Secretary Haaland for the Mendocino Indian Reservation.<sup>3</sup> The Disaster Declaration includes the need to provide the necessary resources to defeat coronavirus and to bring food, medicine security, education, economic development, and sovereignty through agricultural systems, business and industrial development, environmental remediation and stability, and housing security to all Tribal Nations.

This letter attachment serves as the packet to validate the immediate distribution of these funds. The pre-consultation and consultation steps have been completed, including several pre-consultation and consultation meetings with the Head Chief involving authorized Tribal

<sup>1</sup> President Biden, Speech to the UN General Assembly, September 21, 2021.

Nations Government staff. The Head Chief was responsible for briefing the Tribal Council before the consultation meetings to discuss the need and how it affects Tribal sovereignty, resources, properties, cultural practices, and/or those persons under Tribal jurisdiction. The review packet presents the proposed program, project, and plan pursuant to the Indian Self Determination and Educational Assistant Act (ISDEAA) 25 U.S.C. 5301, *et seq.*, the Self Determination Act of the Federal Contractor establishing Head Chief Geronimo's Policies.

The review packet contains the necessary requirements including the following plans:

The Mendocino Strategic Plan was approved by the County of Mendocino through the Economic Industrial Plan, and by the State of California and the Federal government in 2010. It took nine years (until 2019) for Georgia Pacific, the operators of the mill from 1856 to 2002, to remediate the land. Per the Environmental Impact Report, this remediation was needed prior to starting any development.

Two years after the remediation has been completed, we have yet to receive Government Agency support or our funding allocations to implement the plan although we have completed many efforts to receive this. FLMMIRATN Agency Tribal Nations and Tribal Council Mendocino Valley have integrated our approved Consultation and EOP, along with consultation for both Native and public interest projects, to develop an implementation plan including shovel-ready projects and longer-term strategic plans.

This plan integrates previously-approved plans along with a comprehensive implementation plan to quickly address coronavirus impacts, as well as to affect widespread economic development and community sovereignty, creating a growing and self-sustaining economy and community to continue reinvesting dividends into new initiatives.

These shovel-ready projects and additional initiatives will build education, research, R&D, jobs, food and medicine systems, hemp industries, and technology manufacturing that will benefit the local economies and bring housing security to unemployed, and veterans across the nation, not limited to already-identified Tribal locations in Kansas, the Dakotas, Arizona,

Arkansas, Illinois, Massachusetts, Oklahoma, Washington, Tennessee, New Mexico, Montana, Wyoming, Nevada and California.

These initiatives will bring 1 million jobs and the support to build a minimum of 6,000 jobs in each Tribal Nation in each State that participates, providing skilled labor with the majority of jobs going to Native Americans.

## Continued Progress Post-Review

Despite the lack of funding, Agency Tribal Nation has partnered with public citizens to continue to develop the initial shovel-ready projects for implementation with the Mendocino Indian Reservation and the Lakota Tribe at Standing Rock.

#### **Why Health IT SIN**

- Improve the way Health IT services are made available to
- Our customers increase in Health IT Market
- Annual value of \$ 21.9 billion with projected annual growth of 7.4 %
- Health IT Value to reach \$ 31.3 billion by 2025 set 2020-2025 Contract adopted

#### **Supporting Federal Health IT strategic Plan (2015-2020)**

- Expand adoptions of IT Health IT products and services
- Avance interoperable health information Solutions
- Strengthen healthcare delivery system

(a) Certain supplies or services to be provided under this contract for use by the Government are required by law to be obtained from nonprofit agencies participating in the program operated by the Committee for Purchase From People Who Are Blind or Severely Disabled (the Committee) under [41 U.S.C.8504](#). Additionally, certain of these supplies are available from the Defense

## 52.208-9 Contractor Use of Mandatory Sources of Supply or Services.

As prescribed in [8.005](#) , insert the following clause:

### Contractor Use of Mandatory Sources of Supply or Services (May 2014)

Logistics Agency (DLA), the General Services Administration (GSA), or the Department of Veterans Affairs (VA). The Contractor shall obtain mandatory supplies or services to be provided for Government use under this contract from the specific sources indicated in the contract schedule.

(b) The Contractor shall immediately notify the Contracting Officer if a mandatory source is unable to provide the supplies or services by the time required, or if the quality of supplies or services provided by the mandatory source is unsatisfactory. The Contractor shall not purchase the supplies or services from other sources until the Contracting Officer has notified the Contractor that the Committee or an AbilityOne central nonprofit agency has authorized purchase from other sources.

(c) Price and delivery information for the mandatory supplies is available from the Contracting Officer for the supplies obtained through the DLA/GSA/VA distribution facilities. For mandatory supplies or services that are not available from DLA/GSA/VA, price and delivery information is available from the appropriate central nonprofit agency. Payments shall be made directly to the source making delivery. Points of contact for AbilityOne central nonprofit agencies are:

(1) National Industries for the Blind 1310 Braddock Place Alexandria, VA 22314-1691 (703) 310-0500; and

(2) NISH 8401 Old Courthouse Road Vienna, VA 22182 (571) 226-4660.

RE: OMB-2700-0042\_GSA-ERRC\_EFFECTIVE\_DATE\_12\_16\_2016.eml

Entities authorized under the Foreign Assistance Act (FAA). Section 607 of the Foreign Assistance Act of 1961, as amended, 22 U.S.C. § 2357, provides that the President may authorize friendly countries, international organizations, the American Red Cross, and voluntary nonprofit relief agencies to use GSA sources of supply and services when determined consistent with and in furtherance of the international development goals of the FAA. The President delegated his authority to make relevant Section 607 determinations under the FAA to the U.S. Agency for International Development (USAID). Entities determined eligible under this authority are listed in Appendix C. Purchases are limited to those for civilian use only

**A. Persons.** Head Chief :Chief Geronimo Thomas Langenderfer, Tribal Federal Contractor and Awardee of the Interior- Travel and transportation.

Agency Tribal Nations seeking to use GSA sources of supply and services for travel-related services and transportation of persons must obtain a separate determination for the requested service(s). This is necessary to determine whether the requesting entity is eligible under the language of the specific contract(s); e.g., travel management services, travel charge card services, and air passenger transportation.

**B. Goods.** An GSA Tribal U.S. Federal Contractor seeking to use GSA sources of supply for transportation of goods pursuant to a contract entered into under the FAR may do so if the requesting entity is eligible under the language of the specific contract(s); e.g., express small package delivery, express heavyweight delivery services. As a general matter, transportation under GSA's tenders of service entered into under 49 U.S.C. § 13712 or similar statutes governing common carriage are limited to transportation for the Federal Government. Thus, an entity that is not part of the Federal Government may not use these tenders of service.

**Determination of eligibility.** Indian Tribal Federal governments other than those covered in this GSA Order may be eligible to use GSA sources of supply and services.

Agency Tribal Nations determination should submit U.S. General Services Administration, Office of Government-wide Policy,

Office of Acquisition Policy (MV), 1800 F St. NW, Suite 2200, Washington, DC 20405,

or by email to [spe.request@gsa.gov](mailto:spe.request@gsa.gov). Include in the request the name: Head Chief :Chief Geronimo Thomas Langenderfer, Tribal Federal Contractor and Awardee of the Interior- Travel and transportation.

(1) Cost-reimbursement contractors (and subcontractors) as properly authorized. Under 40 U.S.C. § 501, the Administrator determined that in order to promote greater economy and efficiency in Government procurement programs, contractors performing cost-reimbursement type contracts or other types of negotiated contracts, when the agency determines that a substantial dollar portion is of a cost-reimbursement nature, may be authorized to use GSA sources of supply. This authorization is reflected in Part 51 of the Federal Acquisition Regulation (FAR), which provides that agencies may authorize certain contractors (generally cost-reimbursement contractors) to use GSA sources of supply. In each case, the written authorization must conform to the requirements of FAR Part 51, Use of Government Sources by Contractors. Contractors are not eligible to obtain GSA City Pair Program contract airfares.

(2) Cost-reimbursement or fixed price contractors' use of GSA Fleet motor vehicles and related services. Subpart 51.2 of the FAR states that, if it is in the Government's interest, a contracting officer may authorize a cost-reimbursement contractor to obtain, for official purposes only, GSA Fleet motor vehicles and related services. The FAR also states that Government contractors shall not be authorized to use GSA Fleet motor vehicles and related services for use in performance of any contract other than a cost-reimbursement contract, except as otherwise specifically OGP 4800.2I approved by the Administrator at the request of the agency involved. Accordingly, any request for use of GSA Fleet vehicles and related services by other than a cost reimbursement cost reimbursement contractor must be requested by the agency contracting officer and approved by GSA.

(3) Fixed-price contractors (and subcontractors) purchasing security equipment. Under 40 U.S.C. § 501, the Administrator has determined that fixed-price contractors and lower-tier subcontractors who are required to maintain custody of security classified records and information may purchase security equipment from GSA. Procedures for such acquisitions are set forth in 41 CFR 101-26.507.

(4) Non-Federal firefighting organizations cooperating with the U.S. Department of Agriculture, Forest Service. Pursuant to 40 U.S.C. § 501 and 16 U.S.C. § 580a, it has been determined that certain non-Federal firefighting organizations may purchase wildfire suppression equipment and supplies from the Federal Acquisition Service (FAS). The current interagency agreement between GSA and the United States Department of Agriculture, Forest Service that enables purchasing based on these statutory authorities is identified as FAS No. FM-IA-06-002, December 27, 2006. Note: GSA transferred product management and sourcing responsibility to the Defense Logistics Agency in 2014 (i.e., "Fire Program supplies") for approximately 300 National Stock Number products; however, eligible non-Federal firefighting organizations covered by the above-referenced statutes may continue to purchase through GSA for wildfire suppression equipment or supplies still

under the Agency's purview.

**(5) Tribes and tribal organizations.**

(a) The Indian Self-Determination and Education Assistance Act (ISDEAA). As provided in section 102(13) of Pub. L. 103-413 (the Indian Self Determination Act Amendments of 1994), a tribal organization, when carrying out a contract, grant or cooperative agreement under the Indian Self-Determination and Education Assistance Act, is deemed an executive agency for purposes of 40 U.S.C. § 501 (See 25 U.S.C. § 450j(k). Additionally, each Indian tribe or tribally designated housing entity and each employee of the Indian tribe or tribally designated housing entity shall have access to sources of supply on the same basis as employees of an executive agency. If the self determination contract contains a provision authorizing interagency motor pool vehicles and related services, as provided in Section 103 of the Indian Self-Determination Act Amendments of 1994, the tribe or tribal organization is eligible to use GSA Fleet motor vehicles and related services, if available (See 25 U.S.C. § 450l). Authorization to use GSA sources of supply under the authority cited in this paragraph does not include purchases for resale unless the contract, grant, cooperative agreement, or funding agreement authorizes such activity. Information on the authority for resale must be provided to GSA, and based on that information, GSA must concur.

(b) The Native American Housing Assistance and Self-Determination Act (NAHASDA). As provided in section 101 of Pub. L. 110-411 (the Native American Housing Assistance and Self-Determination Reauthorization Act of 2008), for purposes OGP 4800.21 July 19, 2016 5 of 40 U.S.C. § 501, each Indian tribe or tribally designated housing entity shall be considered to be an executive agency in carrying out a program, service, or other activity under a block grant pursuant to NAHASDA; and each tribe or tribally designated housing entity shall have access to sources of supply on the same basis as employees of an executive agency (see 25 U.S.C. § 4111 (j)). Authorization to use GSA sources of supply under the authority cited in this paragraph does not include purchases for resale unless the block grant authorizes such activity. Information on the authority for resale must be provided to GSA, and based on that information, GSA must concur.

**(6) Use of Certain Federal supply schedules by state and local Governments.** State and local governments have access to GSA sources of supply, as detailed below. State or local government, defined at 40 U.S.C. § 502(c)(3), includes any state, local, regional, or tribal government, or any instrumentality thereof (including any local educational agency or institution of higher education). In any case of the use by a state or local government of a Federal Supply Schedule, participation by a firm that sells to the Federal Government through its Federal supply schedule contract shall be voluntary with respect to a sale to the state or local government under that contract.

(a) **Cooperative Purchasing.** Pursuant to 40 U.S.C. § 502(c), the Administrator may provide for the use by state or local governments of Schedule 70 and Schedule 84 for supplies and services available under those Federal supply schedules.

(b) **Disaster Purchasing Program.** As provided in 40 U.S.C. § 502(d), the Administrator may provide for the use of Federal Supply Schedules by state or local governments for the purchase of products and services to be used to facilitate recovery from major disasters declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, to facilitate disaster preparedness or response, or to facilitate recovery from terrorism, or nuclear, biological, chemical, or radiological attack.

(c) **1122 Program.** 10 U.S.C. § 381 allows for the purchase of equipment suitable for counter-drug, homeland security, and emergency response activities through the Department of Defense. GSA maintains the catalog of available products under this

program. (d) **Public Health Emergencies.** State, local, territorial, and tribal governments may access Federal Supply Schedules as authorized users for goods and services when expanding Federal grant funds in response to Public Health Emergencies declared by the Secretary of Health and Human Services under section 319 of the Public Health Services Act, codified at 42 U.S.C. § 247d.

(7) **The American National Red Cross.** As provided for in section 2 of Pub. L. 111-263, the Federal Supply Schedules Usage Act of 2010, codified at 40 U.S.C. § 502(e), the American National Red Cross in furtherance of its purposes set forth in 36 U.S.C. § 300102 is authorized to access Federal Supply Schedules. Authorization to OGP 4800.2I July 19, 2016 6 use Federal Supply Schedules under the authority cited in this paragraph does not include purchases for resale.

(8) **Other Qualified Organizations.** Under the Federal Supply Schedules Usage Act of 2010, 40 U.S.C. § 502(e), the Administrator may provide for the use by other qualified organizations, to include the National Voluntary Organizations Active in Disaster (NVOAD), of Federal Supply Schedules. Purchases under this authority by other qualified organizations shall be used in furtherance of purposes determined to be appropriate to facilitate emergency preparedness and disaster relief and set forth in guidance by the Administrator of General Services, in consultation with the Administrator of the Federal Emergency Management Agency. This authority may not be used to purchase supplies for resale. The term “qualified organization” means a relief or disaster assistance organization as described in section 309 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5152).

e. **Other statutes.** Other statutes authorize specific organizations to use GSA sources of supply and services. The organizations that have had eligibility reviews conducted and that have been determined eligible to use GSA sources of supply are listed in Appendix B or Appendix C, as appropriate. The major categories of such organizations include:

**Ineligible activities.** Except for the acquisition of excess personal property through sponsoring agencies, which is governed by FMR 102-36.185 - 102-36.205 and not this GSA Order, or in accordance with paragraph 7.d(6)(d) above regarding state and local governments expending Federal grant funds in response to Public Health Emergencies, Federal grantees are ineligible to use GSA sources of supply and services. In addition, a cost-reimbursement contractor cannot transfer procurement authorization to a third party.

Associate Administrator Office of Government-wide Policy

## Appendix A: Executive Agencies

The following have been determined to be "executive agencies," or parts thereof, for the purpose of using GSA sources of supply and services. This list is not all-inclusive; other agencies may be eligible, and GSA will make an eligibility determination on a case-by-case basis in response to requests received. (See paragraph 11). Listed here are major executive agencies and their components for which inquiries have been received.

- Agency for International Development
- Agriculture, Department of
- Bonneville Power Administration
- Commodity Futures Trading Commission
- Consumer Products Safety Commission
- Corporation for National and Community Service
- Education, Department of Energy,
- Department of Environmental Protection Agency
- Equal Employment Opportunity Commission Executive Office of the President
- Federal Emergency Management Agency
- General Services Administration
- Health and Human Services, Department of Agency Tribal nations
- interagency Council on the Homelessness
- Interior, Department of the Native American Affairs Utilities
- National Archives and Records Administration
- Selective Service System
- Transportation Security Administration
- U.S. Postal Service
- Veterans Affairs, Department of OMB Federal Assistance Approved OMB 4040-0004 exp. 12-31-2022 SF-424)

## **Appendix B: Other Eligible Users**

The following have been determined to be eligible to use GSA sources of supply and services, in addition to the organizations listed in appendixes A and C. This list is not all inclusive; other organizations may be eligible to use GSA sources of supply and services. ## **SERVICE HEMP LAB AND RESEARCH EDUCATION CURRICULUM**

This step is critical, as it will establish the purpose and intent of the Research to Tribal University, clarify the standards that will guide the planning /strategy and identity potential curriculum resources for the future guidance, support and assistance, projected to design ,develop a communication IT schedule 70 and 84 matrix design to ensure that information relating to the community efforts and Tribal education in Tribal University is described accordingly to the strategic plan with emphasis on getting such information to the tribes and tribal organization. The communication plan and matrix will help to provide every opportunity for participation by the members of the tribe communities. It should be noted at this point, that portion of the communications matrix must address the process assessment to the University and should lean on the structures that GSA, IHS,HHS, that should give their guidance as it was proposed by the President of the United States comply to the L.93-638 25 CFR Part 900 Education Self-Determination Act Final Rule..
