

THE SHIFT

— A SIMPLE PATH TO BETTER OUTCOMES —

When you combine science with implementation,
everything changes.

TEST

Bleeding or pockets?
Take a MicrobeLink Dx®
test.

CLARITY

Identify the bacteria.
Get clear, actionable
insights.

TREAT

SRP + PerioProtect® trays.
Antibiotics when indicated
based on results.

RE-EVALUATE

Follow up in
6 weeks – 3 months.

SUPPORT

Ongoing care.
Healthier patients.
Stronger results.

COURSE OUTLINE

MODULE 1 | THE WHY

- The link between oral health and systemic health

MODULE 2 | THE SCIENCE

- Understanding the oral microbiome and interpreting results with confidence

MODULE 3 | THE TREATMENT

- Building a simple, effective perio treatment protocol with SRP, antibiotics, and PerioProtect® trays

MODULE 4 | THE IMPLEMENTATION

- Case presentation, re-evaluation, patient communication, and long-term support
