

PURPLE TREE RECRUITING TECHNOLOGY COMPANY BRIEF

QUICK AND EFFICIENT

Depending on the position, it typically takes us 2-4 weeks to present highly qualified candidates to you. After that, the process can move as quickly as your schedule allows. Purple Tree will assist in coordinating interviews, job offer negotiation, and candidate onboarding.

Database of passive candidates

Our database contains qualified professionals in technology and consulting. When we reach out to our candidates we have a 60% response rate - well above the industry average.

Data to make the best hire

We'll share detailed skill-set reports to help you see the quality and caliber of candidates with your ideal attributes. Your weekly reports will include details on competitor activity, employment trends, & in-depth compensation data.

Candidate Deep Dives

Candidate deep dives allow us to build comprehensive profiles to help you truly understand the candidates we present. We'll spend 1-2 hours qualifying each candidate before we present.

Weekly Reports

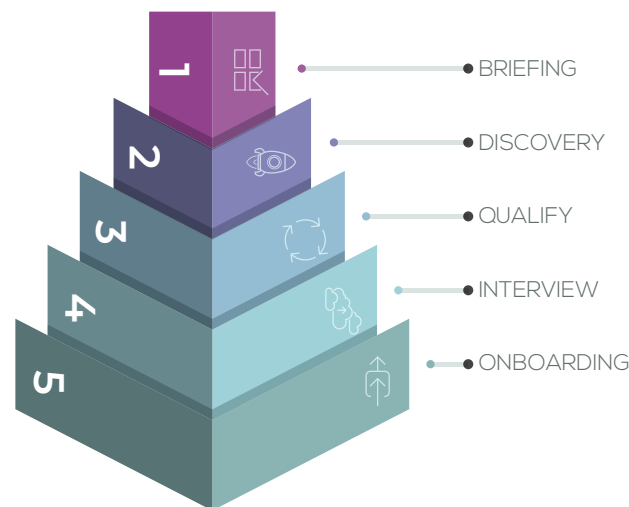

Each week, you'll receive with details on who we've reached out to, how many candidates are in our pipeline, and all of the market data we've collected. Weekly reports give you a quick and simple look at how close your project is to completion.

Marketing Platform

Your search strategy includes a complete digital and social marketing platform. Our digital marketing technology will extend the reach of your job marketing and allow you to touch thousands of potential candidates with no additional effort or expense.

5-Step Recruiting Process

We combine people, process, and technology to find candidates quickly and bring them onboard. Whether you have a detailed recruiting plan or would like us to take care of everything, our service is built to your needs.
