**STATEMENT OF COLORADO CD-4 DEMOCRATIC CANDIDATE JOHN PADORA ON  
COLORADO'S 3RD CONGRESSIONAL DISTRICT REPRESENTATIVE  
LAUREN BOEBERT RUNNING IN COLORADO CD-4**

*Boebert Abandons Constituents And Carpetbags To Colorado's  
4th Congressional District*

**WINDSOR** - Last night, Colorado voters were made aware of Republican Congresswoman Lauren Boebert's decision to abdicate her 3rd Congressional District seat because the writing on the wall clearly shows she cannot outraise and beat Democratic Adam Frisch in a head on election based on real issues that her constituents care about.

Instead, she has decided to cut bait and run in Colorado's 4th Congressional District where she believes she can win the MAGA Congressional Clown Car Republican Primary. Let me be very clear, Boebert has abandoned her district and she'll abandon ours too if it serves her. Colorado's CD-4 constituents deserve a congressman with

integrity, decency, and more importantly, with a real connection to the district. I've lived in CD-4 for three years, after spending every summer here as a kid, and Boebert cannot speak to our values with the class and decency our district deserves.

Boebert initially ran in CD-3 as an outsider who would approach politics differently than the normal DC political class. This was always a load of crap, but now, by deciding to carpetbag into CD-4, she's proven her character as a self-serving politician who couldn't care less about her constituents.

She's a grifter, an extremist lunatic, and she's made an ass out of herself and embarrassed her district and our state more times than I can count. She was a loser in CD-3 and I'll make sure she's a loser in CD-4.
