OBJECTIVES OF PROGRAM

The Junior Livestock Program provides many worthwhile experiences and opportunities for Pinal County Junior Livestock Exhibitors. Specific objectives of the program are:

1. To teach responsibilities to junior livestock exhibitors in the caring of market animals.
2. To teach skills and good habits regarding proper feeding, health care, fitting and showing of market animals.
3. To provide junior livestock exhibitors a program that will be both educational and enjoyable.
4. To offer a learning program with emphasis on success, but not dominated by competition.
5. To promote an attitude of sharing knowledge among exhibitors with other exhibitors, older and younger, and with the entire family.
6. To teach and encourage safe handling practices at all times, when working with or showing a market animal.

CODE OF ETHICS

Exhibitors, Parents, and Leaders shall conduct themselves in such a manner as to be a credit to themselves, to their club/chapter and to their leader/advisor. All policies and procedures relating to conduct, as determined by the Pinal County Jr. Livestock Program Code of Conduct will be enforced. Competitive events are held primarily for their educational value. Exhibitor's participation in all fair contests shall display good sportsmanship throughout the fair. Failure of an exhibitor, parent, and leader to so conduct him or herself or failure to abide by or follow any applicable rule, policy or procedure shall be grounds for disqualification. Disqualification means that the exhibitor's animal(s) may not be shown or sold at the auction and all prizes, awards, and monies will be forfeited. Failure to forfeit prizes and awards and monies will result in a lifetime ban from all future participation of Pinal County Junior Livestock along with their siblings. Leaders, advisors, teachers or parents who bring exhibitors to the Fair shall maintain responsibility and supervision of minors and shall enforce proper conduct. The Pinal County Junior Livestock Committee will make the decision after listening to all persons with direct knowledge of the alleged misconduct, including the exhibitor. All decisions of the Pinal County Junior Livestock Committee are final.

SECTION 1: General Rules and Requirements

- A. Participation is open to all exhibitors whose legal residence is within Pinal County. The only exception to this rule would apply to any child, regardless of their residence, who participated in the Pinal County Fair Junior Livestock Division prior to and including 2005 as a member of a Pinal County 4-H Club or FFA Chapter, will, along with their immediate siblings, be allowed to continue their participation in the Pinal County Jr. Livestock show as long as they participate under the rules and regulations of the Pinal County Jr. Livestock Committee (PCJLC).
- B. Each exhibitor must be a member in good standing of a 4-H, Association or FFA club or chapter.
- C. Age Requirements: Exhibitors must have had their 8th birthday before January 1, 2023 and exhibitors cannot have passed their 19th birthday prior to January 1, 2023 to be eligible to show.
 - 4-H (8-19)**
 - Association (8-19)**
 - FFA: FFA member in good standing not exceeding 19**
- D. Purchasing a livestock project does not guarantee that the animal will be eligible to exhibit at the fair. Exhibiting at the fair does not guarantee the animal will be sold at the auction and selling an animal at the auction does not guarantee a profit will be made.
- E. Exhibitors will only be allowed to exhibit and/or auction animals in one county fair. Any exhibitor, who is found in violation of showing and/or selling an animal in more than one Arizona county fair, will be barred along with their siblings, from any future participation at the Pinal County Fair.
- F.
 1. Each exhibitor will be allowed to enter up to three (3) animals with no more than two (2) animals of a single species or combination of any species in the market division.
 2. **For entry into the carcass contest**, exhibitors will be required to enter online and pay the required entry fee for one carcass animal entry before the final online submission date closes for Holstein Calf (**January 12, 2023**). No declaration to leaders or advisors will be required. Exhibitors that entered a carcass entry online will be allowed to bring one of their entered market animals to carcass receiving. Any exhibitor that does not drop off an animal at carcass receiving, voids their carcass entry.
 3. Each exhibitor may show two (2) animals of single species in the market division or combination of any species in the market division. However, only one animal may be sold at the Jr. Livestock Auction. The animal eligible for sale must be declared by the exhibitor unless both animals are both of the same species, in this case the exhibitors choice will be sold at the Jr. Livestock Auction. The animal eligible must be declared by Thursday of fair by 10:00am to the PCJLC Office.
 4. Each exhibitor may show only one (1) animal in the carcass division.
- G. All exhibitors must comply with the USDA Wholesome Meat Act, the Wholesome Assurance Statement and the IAFE National Code of Show Ring Ethics as published below. Health Regulations of the United States Department of Agriculture require that animals treated with drugs, pesticides or any other chemical must go through the prescribed withdrawal period as listed on the label. Therefore, it is important that exhibitors determine the type of treatments used if the animals must be dipped or treated prior to leaving the point of origin.

USDA WHOLESOME MEAT ACT

The United States Department of Agriculture Wholesome Meat Act applies to the sale of market livestock sold during the Pinal County Fair as follows:

- 1) Animals must be in good health and carcasses free of drug or chemical residues.
- 2) Antibiotics and sulfonamides have required withdrawal periods.
- 3) Before administering antibiotics and/or sulfonamides, consult a licensed practicing veterinarian, or label directions of the drug.

4) Drug label directions for use and withdrawal periods must be followed.

5) If drug or other chemical residues are found in tissue of carcasses, the entire carcass may be condemned.

If drug or other chemical residues are found in the urine, blood or tissue from an animal sold through a sale connected with the Pinal County Fair, the PCJLC or the fair will in no way be liable or responsible for the condition of the carcass or sale price of animal. Exhibitor will forfeit all rights to the sale proceeds.

WHOLESOME ASSURANCE STATEMENT

The use of animal drugs or other substances by non-veterinarians in any manner other than in accordance with the labeling approved by FDA, is a violation of federal law.* Food animals must not exceed FDA/EPA/USDA established tolerances for any foreign substance including drugs, pesticides, feed additives, or other chemicals. Violation results of residue testing are subject to investigation by USDA and FDA for prosecution. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.* Note: Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation. (PLEASE CONSULT YOUR PROJECT LEADER IF YOU DO NOT UNDERSTAND ANY OF THESE STATEMENTS.)

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1) All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.

2) Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.

3) Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.

4) Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine,

saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5) Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed. Veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6) The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7) Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8) No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.

9) The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10) The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.

11) The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

- H. ALL GRAND AND RESERVE CHAMPION MARKET ANIMALS WILL BE DRUG TESTED.** The PCJLC reserves the right to conduct drug tests on any animal exhibited. Tissue, blood and urine samples may be collected. Blood or urine samples will be collected as soon as possible after the Grand and Reserve Champions are selected and/or as required.

There can be no presence of any performance-enhancing based drugs (i.e. including but not limited to, anabolic steroids, diuretics, anti-inflammatories, tranquilizers and pain killers) and/or derivatives thereof in test samples. A drug test fee of \$5 per head entered must be paid at the time of entry through the online entry system.
The exhibitor must be present at the time of sample collection. If the exhibitor of the animal is not 18 years of age, a representative must accompany the exhibitor during the time of sample collection. Only the exhibitor and a parent or guardian, and superintendent, along with the licensed veterinarian are allowed to be present in the testing area during sample collection.
In the event of a positive result, the exhibitor will FORFEIT ALL PRIZES, PLACEMENTS AND AUCTION MONIES FOR THE CURRENT YEAR. Failure to forfeit prizes, awards and monies will result in a lifetime ban from all future participation of Pinal County Junior Livestock along with their siblings.
IN THE EVENT OF THE FIRST POSITIVE TEST THE EXHIBITOR WILL BE BANNED FROM PARTICIPATING IN ANY PINAL COUNTY JUNIOR LIVESTOCK ACTIVITIES THE FOLLOWING YEAR. THE EXHIBITOR AND ALL DIRECT FAMILY MEMBERS WILL AGREE TO LIFETIME DRUG TESTING OF ANY ANIMAL EXHIBITED IN A PINAL COUNTY JUNIOR LIVESTOCK ACTIVITY AT THEIR OWN EXPENSE.

- F. The auction sale order is determined for each species by the ranking each animal received in its market class ribbon group (*i.e.* **Second Red Ribbon**). The PCJLC uses a formula which computes each animal's ribbon color, ribbon color placing and weight class, and then ranks the animals in the correct sale order for each species. *For example, all of the first place red ribbon animals of a specie will sell from the heaviest to the lightest weight classes in the sale order, then all of the second placed red ribbon animals will sell heaviest to the lightest.* The official Auction sale order will be: 1) Market Champions; 2) Carcass Champions; 3) Best Arizona Bred Champions; 4) Purple Ribbon market animals; 5) Blue Ribbon market animals; 6) Red Ribbon market animals; 7) White Ribbon market animals. 8)Carcass animals and finally 9) Re-sale Auction (animals donated to be re-sold).
- G. The sale price received for the Grand Champion Market animal of that specie will set the maximum sale price for the Champion Carcass animal and the Reserve Champion Market animal sold for that specie. The sale price received for the Reserve Champion Market animal will establish the maximum sale price of that specie for all remaining market and carcass animals sold through the auction for that specie.
 1. In determining the MAXIMUM SALE PRICE for the Champion Carcass animal and the Reserve Champion market animal for each species; **ALL ADD-ON BIDS**, for the Grand Champion Market animal, received by the PCJLC prior to the start of the Reserve Champion sale will be added to the total price per pound, thus increasing the maximum sale price possible for the Reserve Champion.
 2. In determining the maximum sale price for all remaining animals sold for each species; **ALL ADD-ON BIDS**, for the Reserve Grand Champion animal, received by the PCJLC prior to the sale of the first purple ribbon animal for each specie will be added to the total price per pound, thus increasing the maximum sale price possible for all remaining animals sold in each species.
- H. Grand and Reserve Champion Carcasses will be sold with the Market Champions on a live weight basis. Grand and Reserve Champion Carcasses cannot be floored at the market auction. Purple, Blue & Red Ribbon Carcass animals can be sold on a live weight basis at the exhibitor's request during the Carcass Auction following the Market Auction and before the Resale Auction. - J. ALL SALES ARE FINAL! In January, 2024, a 1099 Form will be issued from the PCJLC to the exhibitor for their total in add-on premiums. This form and procedure is required by the Internal Revenue Service (IRS) in order for the PCJLC to issue auction proceeds checks to those exhibitors exceeding \$600 in add-ons.
- O. All non-selling animals must be removed from the fairgrounds no later than Friday at 8:00 P.M. Exhibitors must check out with their specie superintendent and receive all proper paperwork prior to leaving the fairgrounds.
- P. All Champion, Reserve Champion and Best Arizona Bred animals must sell at the auction. For exhibitors showing two animals, if the non-declared market animal wins Grand Champion, Reserve Champion or Best Arizona Bred, then it will sell in place of the declared animal.
- Q. Prices received in the auction ring must be accepted. Acceptance of selling an animal in the auction does not imply or guarantee the sale of that animal for more than the floor price. The specie floor price determined at the start of the auction sets the minimum price for each specie division.
- R. Auction floor prices will be determined by a sealed bid process. Floor prices will be announced just prior to the start of the sale. A person submitting a floor bid agrees to the following terms:
 - 1. Floor bids must be turned in to a PCJLC member by 9:00 am on auction day. Floor bids submitted on a price per pound will be published in public as bids are approved. The highest bidder will be sold all of the floor animals for that species at their submitted bid price.
