

Honeywell Fire Protection Seminar

Thursday, October 25, 2018

9:00am – 2:00pm

600 11th Street South
Birmingham, AL 35205

Fire protection is one of the most challenging issues we face, and improving fire safety is a common goal for all organizations and individuals. Honeywell Fire Solutions offers an extensive portfolio of fire devices and tools that will help advance your fire business while protecting lives and property more efficiently and effectively. This four-hour seminar we will cover the latest product and solution offerings from Honeywell's top fire protection brands. *Lunch to be provided.*
